Japanese Advance Begins on Czar's Position at Liao-Yang.

HEAVY LOSSES REPORTED

[Associated Press Cable to The Gazette.]

St. Petersburg, June 14.—Emperor Nicholas has received the following telegram from Lieut.-Gen. Baron Stakelberg, bearing today's date:

"A battle began at noon around the Russian position four and one-half miles south of the station of Wa-Fan-Hoon (Vafangow?), the enemy making repeated attempts to dislodge our left flank. The attack was repelled and we retained our position.

"The First regiment, occupying the left flank of our position, sustained severe losses. Its commander, Col. Khavastounoff, and Adjt. Sub-Lieut. Dragoslaff Nadochinsky were killed. Gen. Gerngross was wounded, a shrapnel bullet shattering the right side of his lower jaw, but he remained on the field."

LIAO-YANG, June 14.—Japanese artillery today opened upon Vafangow (a station on the railway 25 miles above Kin Chau). Details are awaited.

LONDON, June 14.—The Central News has received a dispatch from its Liao-Yang correspondent under today's date, saying that heavy firing between the Russian and Japanese vanguards commenced at 1:40 o'clock this afternoon. The fighting extended along the entire front, assuming the dimensions of a general engagement. The correspondent says that no details are available.

TOKYO, June 14.—(Special Cable.)—The forward movement on the Russian position at Liao-Yang has begun. The Japanese army is moving in three great divisions, with the bases at Kwan-Tien on the east, Fung-Wang-Cheng in the center and Siu-Yen on the west. The columns are in touch with each other and the Siu-Yen division is in touch with Oku's force on the Liao-Tung peninsula.

The objective of this movement is Liao-Yang. The eastern column, with its head at Ai-Yang, will take the Russian position on the left flank, and is in a position to threaten Kuropatkin's retreat to Mukden. The Siu-Yen division is moving on to Hai-Cheng, with its advance guard already at Si-Mu-Cheng, and unless the Russian force which has been operating against Gen. Oku's rear withdraws hastily it will be cut off.

Gen. Kuroki, with the central division, is moving along the Pekin road from Fung-Wang-Cheng, and his advance is now reported at Kau-Kia-Ling. The country between the three columns is thoroughly covered by cavalry and light artillery, and there has been no serious difficulty in driving back the Cossacks. Wherever they have made a stand they have been outnumbered and beaten, generally with loss.

Only one thing can prevent a great battle within a week and that is the retreat of the Russians. It is believed here this will be the result of the present movement. The advance is taken to mean that Oku's preparations to take Port Arthur have been completed and news of his success is expected now at any time.

JEALOUS MAN KILLS WOMAN AND HIMSELF

LEWISTOWN, PA., June 14.—William A. Sheaffer, aged 34, shot and killed Flora Wagner, formerly of Harrisburg, tonight and then blew out his own brains. Inmates of the house say that the cause of the tragedy was jealousy on the part of Sheaffer. The latter, who was formerly a saloonkeeper in Slingsville, O., came here six months ago with the woman.

The Wagner woman had been corresponding with a man living in Three Springs, Huntingdon county, Pa., to which Sheaffer objected. Today she received another letter and a quarrel followed which ended in the shooting.

HEARST'S NAME GETS ILLINOIS

His Managers Are Ignored, but Resolutions Instruct for Him.

HOPKINS IN CONTROL

His Forces Put Through Lawrence B. Stringer for Governor.

CARTER HARRISON UNSEATED

[By Associated Press to The Gazette.]

Springfield, Ill., June 14.—The Democratic state convention today nominated Lawrence B. Stringer of Lincoln for governor and instructed the delegates to the St. Louis convention to vote as a unit for William R. Hearst for the presidential nomination. The convention was controlled by John P. Hopkins, former mayor of Chicago, and now chairman of the state central committee.

Mr. Hearst's campaign managers, who attempted to ride into power by the aid of his name, received no consideration whatever from the convention. The Harrison party, which came solely from Chicago and was pledged to the support of Congressman James R. Williams, was routed completely. Mayor Carter H. Harrison was unseated as a delegate, and took a train for home without going near the convention. Both his faction and the Hearst party were as nothing compared to the strength and skillful management of the convention exhibited by Hopkins.

The report of the committee on credentials, indorsing Mr. Hopkins' action and seating his delegates, was put through under the gavel, in spite of vigorous protests from the adherents of Hearst and Harrison.

Following this, Judge William Prentiss of Chicago, a supporter of Hearst, took the platform and withdrew as a candidate for governor. He declared that he desired nothing from the convention, as it did not, in his opinion, represent the Democracy of Illinois.

William C. Crollus of Joliet, followed in a brief speech, indorsing the stand taken by Judge Prentiss and also withdrew his name.

Clayton E. Crafts, of Chicago, read the report of the committee on resolutions. He was frequently interrupted by hoots and jeers. The resolution providing for the indorsement of Mr. Hearst was not made a part of the report of the committee on resolutions, but was submitted to the convention as a separate matter.

The original resolution provided practically that the Illinois delegation should vote for Hearst until it was convenient to vote for somebody else. A substitute offered by Clarence S. Darrow, pledging the delegates to Hearst as long as his name is before the convention, was then adopted.

A direct primary election law is demanded by the platform and the administration of Governor Yates is strongly denounced.

Lawrence B. Stringer, of Lincoln, and Clarence S. Darrow, of Chicago, were named for governor. Mr. Darrow declined to run and Mr. Stringer was nominated by acclamation.

Following is the full state ticket nominated: Governor, Lawrence N. Stringer; lieutenant governor, Thomas J. Ferns; secretary of state, Frank E. Dooling; state treasurer, Charles B. Thomas; attorney general, Albert Watson.

The delegates at large to the St. Louis convention are John P. Hopkins and Andrew M. Lawrence, of Chicago; Ben. T. Cable, of Rock Island, and Samuel Alschuler, of Aurora.

John P. Hopkins will succeed himself as chairman of the state central committee.

Official Kills Himself.

HARTFORD, CONN., June 14.—(Special.)—A remarkable case of the chance discovery of crime ended today in the suicide of Supt. D. A. Harris, of the Britain water department. Fearing disclosures in police court this morning, in a case in which his name was concerned, Supt. Harris shot himself. The disclosures were not made, however.

Bryan Says Honest Men Are Opposed to Party's "Burglarious" Methods.

RAPS NEW YORKER'S FRIENDS

[By Associated Press to The Gazette.]

New York, June 14.—The following letter from William J. Bryan to M. G. Palliser, who has called an anti-Parker meeting here, was made public here today:

"LINCOLN, NEB., June 9, 1904.

"Mr. M. G. Palliser, New York City:

"Dear Sir—I am in receipt of your letter enclosing the call for a convention of protest to be held in New York on the 20th of June. I am very glad this step is being taken, and assume that it is not the object of the protesting convention to send a contesting delegation to St. Louis or to question in any way the regularity of the Albany convention, but merely to enter a protest on behalf of a large number of New York voters who believe in honesty in politics and are opposed to the burglarious methods which are now being employed to foist upon the party a speechless candidate and a meaningless platform.

"The argument made in favor of Judge Parker is not that he is in any way fitted for the position, because his fitness cannot possibly be ascertained without a knowledge of his views on public questions. The argument made by his friends is that he can win, and they base their belief on the fact that he has never said anything in connection with pending questions; he had no record that can be used against him. His virtues are purely negative, and his friends think it sufficient that the Democrats send him forth as a candidate with the indorsement, 'We know nothing against him.'

"It is the first time, in recent years at least, that a man has been urged for so high a position on the ground that his opinions are unknown. Surely the Democratic party is in desperate straits if, among all of its members, it cannot find a trustworthy man who has ever been interested enough in public questions to give expression to his opinion. In the great contest between democracy and plutocracy our party should take a positive and aggressive stand, and it should present a standard bearer who will infuse courage and enthusiasm among the masses.

"I am glad that there are Democrats in New York who are willing to register such a protest as your call suggests, and I trust that the protest may be effective at St. Louis. When it is shown, as I believe it can be shown, that a non-committal candidate would not be popular with the voters, even in New York, the Parker candidacy will lose its only prop. I mistake the loyalty and earnestness of the Democrats who were true to the ticket in 1896, when loyalty meant abuse and ostracism, if they are really in favor of a silent candidate whose most conspicuous supporters have in recent years been more familiar with Republican headquarters than with Democratic headquarters.

"Very truly yours,

"W. J. BRYAN."

LISBON, O., June 14.—(Special.)—Jacob Bellhart's Spirit Fruit factory has aroused the people. Last night the village was placarded with printed cards, bearing the following: "Wanted—Fifty good women, over 30 and under 50 years of age, also 50 good, honest-hearted men with families to meet on the square when called upon and go to the 'Spirit Fruit' farm and tell them to take their departure at once or take the consequences, as tar is cheap and feathers plenty." Bellhart is in Chicago this week preaching his doctrines.

NO FREEDOM FOR AMERICAN TODAY

Hitch in Negotiations With Raisuli for the Release of Perdicaris.

FRENCH OCCUPATION URGED

[Associated Press Cable to The Gazette.]

Tangier, June 14.—A courier from Raisuli, the bandit chief, who kidnaped Messrs. Perdicaris and Varley, arrived here during the night. United States Consul General Gummere and the British minister subsequently visited Mohammed el Torres, the representative of the sultan of Morocco, to discuss the contents of Raisuli's message. The distance of Raisuli's headquarters makes the negotiations drag. It is now thought possible that the captives will not be released this week although Wednesday was the day set. The British minister says there is a hitch in the negotiations, which will probably delay the release of the prisoners, but he refuses to state the nature of the difficulty.

It is reported that great uneasiness is felt at Fez, on account of an offer made by one Kaid, who is some 20 miles distant from Fez, of $2,000 for the capture of any Christian in order that he may exchange him for his brother who is a prisoner. The United States cruiser Brooklyn will leave tomorrow for Gibraltar to take on coal and stores. Rear Admiral Chadwick will remain at Tangier.

WASHINGTON, June 14.—United States Consul General Gummere at Tangier, Morocco today cabled to the state department, indicating that the negotiations for the release of Perdicaris and Varley have not yet been completed. Just where the hitch is cannot be learned. It is suspected that it relates to the vexed question of a guarantee by the United States and Great Britain of immunity for Raisuli and the faithful observance of the sultan's promises. As a result of today's advices, officials here have changed their opinion as to the date of the release of the captives and say that several days must yet elapse.

LONDON, June 15.—The Daily Mail's Tangier correspondent, urging French occupation as the only remedy for the serious internal condition of Morocco, declares that a revolution is practically certain with a couple of months and that it will be supported by the entire educated class. The sultan's authority is virtually non-existent, he says, and until the country is occupied Europeans are on the edge of a volcano. Should France avoid her responsibility, America or Great Britain may be forced into energetic action, thus creating a situation similar to that existing in Egypt.

DAYTON GOES TO HEAD OF THE NAVY

Knox Ready to Resign and Will Be Succeeded by Moody.

WEST VIRGINIAN'S CHANCE

The Pittsburgh Gazette Bureau, Room 10, Postal Building, WASHINGTON, D. C., June 14.

Attorney General Knox will resign his cabinet position immediately to accept the appointment as senator from Pennsylvania. As soon as he receives his certificate of appointment from Gov. Pennypacker, which will probably be tomorrow, he will tender his resignation as attorney general to President Roosevelt. The president will appoint William H. Moody, secretary of the navy, to the position of attorney general within a few days after Mr. Knox leaves the office.

As to Secretary Moody's successor, there is nothing definite announced. It is probable that Assistant Secretary Darling will continue as acting secretary until a secretary is appointed. The name of Representative A. G. Dayton of West Virginia has been suggested for secretary of the navy. A close friend of Representative Dayton said tonight that the president had offered the position of secretary of the navy to Dayton and that he would likely accept it. Mr. Dayton was at the White House today and left this evening for his home in Philippi, W. Va.

Mr. Dayton is the ranking member of the house committee on naval affairs and has for years taken an active interest in the upbuilding of the navy. On the subject of strengthening this branch of the national defense he and the president are in strict accord.

The determination of Attorney General Knox to resign from the cabinet at once was a surprise to President Roosevelt, who had hoped that Mr. Knox would remain until December. But today the attorney general had a talk with the president, in which he said he did not consider it wise for him to remain in the cabinet after his appointment to the senate, even though he only drew one salary.

Mr. Moody has intended for some time to resign from the cabinet as soon as his present term of office expires, which will be on March 4, next year. He is a lawyer of high standing in Boston and has formed a partnership with ex-Secretary Long and other leading attorneys, with the idea of returning to the practice of his profession.

Attorney General Knox today attended the cabinet meeting, the first at which he has been present since his selection as United States senator. His colleagues were profuse in their congratulations, though they were equally sorry to lose him as one of their number. Mr. Knox expressed his regret at his approaching resignation, but he put in a busy afternoon attending to a number of matters in his department which he wishes to get cleared up before his successor takes charge.

President Roosevelt is at last able to fill a long cherished wish to get a western man into the cabinet. He has tendered the position of secretary of the department of commerce and labor to Representative Victor H. Metcalfe, of California. Secretary Cortelyou's selection by the president for the chairmanship of the national Republican committee makes a prospective vacancy in the commerce portfolio. Preliminary soundings give ground for the belief that Mr. Metcalfe will accept.

FIFTY THOUSAND TROOPS ATTACK PORT ARTHUR

Report Says the Final Assault on the Citadel Has Begun.

[Special Cable to The Gazette.]

CHEFOO, June 14.—The final assault on Port Arthur began today, according to reports which reach here from sources hitherto found reliable. Nearly 50,000 Japanese are said to be engaged in the actual attack, while half as many more are engaged in diverting the fire of the entire line of forts not hitherto captured by the investing force.

The Japanese warships are taking part in the battle. They have drawn in closer than at any time since the sinking of the Hatsuse, and are pouring a storm of shell into the fortress.

It is reported that Admiral Witseoft made another sortie last night but was greeted with such a hot fire that he was compelled to go back into the harbor to avoid annihilation. It is believed now that Admiral Witseoft will at the final moment destroy the ships of his squadron rather than send the men under his command to certain destruction.

MINERS TO FACE MURDER CHARGE

Warrants Have Been Issued for Eighty-Seven Cripple Creek Unionists.

MANY FLEE TO MONTANA

[By Associated Press to The Gazette.]

Cripple Creek, Col., June 14.—Virgil King, Charles Matthews and Patrick Mullaney were taken from the Victor "bull pen" to the county jail today. The military authorities say that King and Mullaney will be charged with complicity in the Independence dynamiting, and that Matthews is held as a witness. The men are prominent members of the Western Federation of Miners.

The Citizens' committee of investigation has resolved itself into a permanent organization and has decided to hold meetings every day until the district is cleared of men objectionable to it. When martial law is lifted, it is the intention of the commission to work in unison with the sheriff's office.

Gen. Bell intimated today that the request of the Western Federation of Miners will be complied with, and the men deported in future will be sent to a camp in New Mexico.

A committee of 40 leading business men tonight unanimously agreed on the following statement of the attitude of employers toward organized labor in this district:

"In the future neither walking delegates, agitators nor labor unions will be allowed to say who may or who may not labor in Teller county, who may or who may not do business here. The source of all strife in the Cripple Creek district has been the Western Federation of Miners and the Trades Assembly. There is no room in Teller county for these two organizations and their existence will no longer be tolerated.

"Unions of various crafts already organized will not be intertered with as to their local or international affiliations, provided the Trades Assembly be forthwith disbanded and no similar boycotting agency be organized; and provided further that such unions of the local crafts have not for their national or international affiliation the Western Federation of Miners, the American Labor Union, the State Federation of Labor, or any criminal organization."

Eighty-seven warrants are out for miners who are accused of complicity in the explosion at the Independence station and the rioting at Victor. It is said that some of the men for whom warrants have been issued in Teller county have left Denver for Butte, Mont., to avoid arrest and incarceration in the bull pen. In each case the charge is murder.

Thirty-two of the prisoners confined in the bull pen were placed aboard a Florence and Cripple Creek train today and deported. Their cars will be atached to a Denver and Rio Grande train at Florence and taken to Pueblo. From there it is understood the men will be placed aboard a Santa Fe train and taken south.

DENVER, COL., June 14.—"I have nothing further to say about plans for reopening the Portland mine," said former Gov. Charles S. Thomas, counsel for the Portland Gold Mining Company, today. "Perhaps if I should talk extensively in reference to my client, the Portland, I might be burned at the stake."

TICKET WILL NOT SUFFER

Wisconsin Quarrel Will Not Affect Roosevelt, Says Spooner.

READY FOR CONTEST

National Committee to Adjourn Today Out of Respect for Hanna and Quay.

PENROSE ARRIVES AT CHICAGO

[Special Telegram to The Gazette.]

Chicago, June 14.—According to schedule the Republican national committee will meet at the Coliseum annex tomorrow afternoon at 2 o'clock with Vice Chairman Henry C. Payne in the chair and will adjourn until 10 o'clock Thursday morning out of respect to the memory of Senators M. A. Hanna and M. S. Quay, after having drafted and approved appropriate resolutions on the deaths of the two party leaders.

The first of the contests involving 32 seats in the convention will be taken up Thursday morning. It may be the Wisconsin contest will occupy most of the day. Senators Spooner and Quarles and Representative Babcock arrived today and did some good missionary work in behalf of the "stalwarts," or anti-La Follette faction. They made progress on account of their influence at Washington and on the national committee. Gov. LaFollette and H. W. Chynoweth of Madison will present the case of the governor's faction and Senator Spooner and John W. Olin that of the stalwarts.

"The national ticket will not suffer and the Democrats will not profit," was all that Senator Spooner would say about the family quarrel in Wisconsin.

However, a national committeeman from another state said:

"I don't look for a solution of the Wisconsin trouble until it is given by the courts."

Congressman Hitt's friends are here, and by the end of the week they will be swarming the various delegate headquarters busily urging his name as President Roosevelt's running mate.

Senator Fairbanks' friends have denied the report that headquarters would be opened in the interest of his vice presidential campaign. The report was started by Frank T. Root, a Hoosier from Connersville, who was not authorized to represent the senator. No headquarters will be opened and he still declines to become an admitted candidate.

According to the plan for the convention, former Gov. Frank Black of New York, is to make the first speech placing President Roosevelt in nomination. The second is to be Senator Beveridge, then will follow five others.

Morning trains brought large numbers of the Republican national advance guard to Chicago today. Senator Penrose of Pennsylvania was an early arrival at the Auditorium Annex and others who reached Chicago included Senators Honsbrough of North Dakota, and Ankeny of Washington; Judson W. Lyons of Georgia and George E. Paxton of Wyoming. Cornelius N. Bliss of New York was also a morning arrival.

Senator Penrose was not accompanied by any members of the Pennsylvania delegation.

"Our delegation is not pledged to anyone for vice president," said Senator Penrose. "Personally I like Senator Fairbanks and believe he would make a strong candidate for vice president. I do not know that he wants the nomination, but if he does I think the vote of the Pennsylvania delegation will be cast for him."

Democrats in State Convention Are Said to Favor Parker.

HOT SPRINGS, ARK., June 14.—The Democratic state convention assembled here today to nominate a full state ticket and select delegates to the St. Louis national convention.

The contest for control of the convention by the Hearst and Parker elements will be spirited, and the ultimate decision of the convention is in doubt, with the chances strongly favoring Judge Parker.

The Hearst forces claim they will be able to prevent instructions, even if they do not capture the state delegation.

GOULD TALKS TO ROOSEVELT ABOUT KNOX AS A SENATOR

Reported Interview at White House in Which Railroad Magnate Declares No Fight Will Be Made in Legislature.

[By Private Wire to The Gazette.]

WASHINGTON, June 14.—The visit of George J. Gould, the railroad magnate, to the White House today gave rise to some interesting rumors in connection with the election of P. C. Knox to the United States senate. Mr. Gould came over on invitation of the president to discuss politics and to take luncheon with the president.

It is reported tonight that during the conversation the president brought up the question of Mr. Gould's alleged opposition to Mr. Knox's election to the senate. For some time there have been rumors afloat to the effect that the Wabash railroad influence would be exerted in the Pennsylvania legislature in an effort to defeat Mr. Knox. The basis for this, it was stated, was the fight made on the Wabash ordinances in Pittsburgh councils.

The important part played by President Cassatt of the Pennsylvania railroad, in the selection of Mr. Knox for the senate was given as an additional incentive for the opposition of the Wabash influence. It is reported that the president outlined these rumors to Mr. Gould and asked if it was his intention to make a fight on Mr. Knox.

He is said to have assured Mr. Gould that the attorney general was a man not susceptible to influence and one who would be equally fair to all parties. Mr. Gould is said to have replied that all he asked was fair treatment and that he had no intention of doing anything whatever to embarrass or oppose Mr. Knox.

Mr. Gould left this evening for New York and the report of his interview with the president on this subject could not be confirmed. L. W. STRAYER.

OBJECTIVE POINT PROBABLY MUKDEN

The Mikado's Army Is Marching Towards Czar's Base of Supplies.

RUNNING FIGHT ALL THE WAY

[Associated Press Cable to The Gazette.]

ST. PETERSBURG, June 15.—(3:16 a. m.)—The general staff remained in session until almost 2 o'clock this morning to translate and give out Lieut.-Gen. Baron Stakelberg's message announcing the fight at Vafangow. This unusually late hour indicates that the authorities attach considerable importance to the dispatch.

It is thought here that the Vafangow affair may prove to have been quite a heavy fight. The fact that the Russians held their position in the face of heavy losses also supports this theory, and it is believed that it may turn out to be a severe check to the Japanese northern advance.

The movement of 8,000 Japanese north of Kuan-Dian-San only adds to the badness of the situation in the northeastern field of operations. It is unquestionable that the Cossacks have been worrying the Japanese north of Feng-Wang-Cheng, and the movement may be merely an effort to clear the country. At the same time this movement holds the possibility of a demonstration against Mukden, one of the main roads leading directly east from Muskden toward the region in which the Japanese are now advancing.

The consensus of opinion, however, is that the advance is more in the nature of a demonstration than a preliminary to an actual attack.

A special dispatch from Liao-Yang, dated June 4 says:

"Yesterday, (Monday) at the battle of Vafangow, Japanese troops numbering 29,000 tried to pass our flank but were discovered. We changed our position, flanking the Japanese, and opened a heavy fire. The result is unknown."

The date of this dispatch does not agree with The Associated Press dispatch from Liao-Yang or with Lieut.-Gen. Baron Stakelberg's message to the emperor, both of which indicate that the battle took place yesterday, (Tuesday). It is thought improbable that there have been two actions.

Emperor Nicholas has also received the following dispatch from Gen. Kuropatkin dated June 13:

"This morning the advance of the two Japanese divisions was discovered northward from Pu-Pan-Tien. The advancing forces at 2 p. m. were observed to extend from the village of Vand-Chou along the valley of the Tassa, one division advancing by the Tassa valley. The enemy halted at 4:30 p. m., occupying the villages of Tao-Tsia-Tung, Chang-Tsia-Tung and Lui-Tsia-Tung and the heights southward of Vand-Chou.

"I have not received detailed information of our losses today, but Lieut. Tcherepakhin and several soldiers were wounded.

"According to our intelligence no advance of the Japanese from Siu-Yen toward Tailing pass was observed today."

The general staff has received the following dispatch dated June 13 from Maj.-Gen. Rarkevitch:

"During the night of June 11-12, the Japanese attacked our advance posts near the village of Utsaten, south of Wan-Fang-Tien station, and above the Pitsewo-Pu-Lan-Tien line. The Japanese were repulsed with loss.

"The same night, after fighting lasting until morning, our detachments took possession of the pass and heights near the village of Tsia-Tung.

"Our losses in these nocturnal encounters were four soldiers killed and 18 wounded.

"During the evening of June 8, Lieut. Lange, while engaged in a reconnoissance in the neighborhood of Ontachetas, 10 miles northeast of Ai-Yang-Meun, was attacked by two companies of Japanese. He succeeded in forcing his way through after a hand-to-hand fight.

"According to information, 3,000 Japanese are marching north toward Hua-Yan-Shang."

CZAR CALLS RESERVES.

Then Mobilization Will Join Kuropatkin 200,000 More Men.

ST. PETERSBURG, June 14.—The calling out of the army reserves in the Kazan, Kieff and Moscow military districts was announced today. This step is for the purpose of filling up the skeleton reserve corps and to replace the regular troops already gone or going to the front. It also foreshadows the dispatch of four Volga corps, which was predicted in these dispatches a month ago. The latter would give Gen. Kuropatkin 200,000 more men.

VORONEZH, RUSSIA, June 14.—An imperial order calling out the reserves of this district has been published.

BOBRUISK, RUSSIA, June 14.—The partial mobilization of the reserves in this district has been proclaimed. Two thousand reserve men are wanted here.

PETROPAVLOVSK, RUSSIA, June 14.—The last two classes of the reserves of this district have been called out.

COMMANDER ODA KILLED.

He Was the Inventor of the Japanese System of Mines.

CHICAGO, June 14.—A special to the Daily News from Tokyo says:

"The officer killed in the accident to the torpedo-laying ship Taiheku was Lieut.-Commander Oda. He was the inventor of the Japanese mine and, by his great activity and skill throughout the operations before Port Arthur, had added largely to his reputation.

"The Taiheku at the time of the accident, was under a heavy fire from the Russian forts and torpedo boats.

CARS CAME TOGETHER.

Dark Spot at Center and Penn Avenues Caused Another Accident.

With a loud crash that could be heard for blocks, a west-bound Frankstown avenue car and an east-bound Penn avenue car came together at Center and Penn avenues just after dark yesterday. In an instant a big crowd surrounded the cars, whence came the screams of women passengers. No passengers were hurt, but they were thoroughly shaken up. Slight damage was done to the Frankstown avenue car, from which the "grab-handle," by which passengers help themselves upon the platform, was torn. It struck the motorman, bruising him.

Cars frequently collide at the same spot. Although the street is brilliantly lighted, there is a queer combination of shadows falling directly upon the switch, which is, therefore, in comparative darkness. The motorman of one of the cars did not see that the switch was open and ran his car in on the other track. As the cars usually take the switch at a low rate of speed, it is seldom that any one is hurt.

CORTELYOU FOR MEMBER OF NATIONAL COMMITTEE.

Governor Odell Hears He Is to Represent New York—Returns from Europe.

[By Associated Press to The Gazette.]

NEW YORK, June 14.—Gov. B. B. Odell of New York landed in this city tonight from the steamship Kaiser Weihelm Der Grosse, after a three weeks' trip abroad. At quarantine the governor was met by a party of prominent Republicans, including Collector of the Port Stranahan, Charles H. Murray, chairman of the Republican committee of New York county, Reuben Fox, Gen. Henry, Gen. Clarkson, Deputy Collector Williams, and others. The governor was taken aboard the revenue cutter Calumet, and with the party of New York men was brought to the Twenty-third street landing.

Gov. Odell said that he had a very pleasant trip. When asked if he had consulted Ambassador Porter in Paris in relation of the Republican nomination for governor in New York, he said:

"No, my trip had no reference whatever to politics."

"Will the New York state committee support Fairbanks for the nomination for vice president?" he was asked.

"I don't know anything about that. I have no intimation of politics since I left. I don't know what is going on. Mr. Cortelyou is spoken of as chairman of the national committee, and it is said he will be a member of the committee from New York. I do not know anything about that."

Admiral Ahemed of the Turkish navy, Lieut. Sirri, his aid, and G. V. L. Meyer, United States ambassador to Italy, were also passengers on the steamer.

GIRL FOILS BURGLAR.

Hummed a Tune While Colored Man Was in Her Room.

George Thomas, a negro, was caught in the house of Otto Koerber, 30 Vine street, early yesterday morning and was committed to jail by Magistrate Stewart on a charge of entering a house with intent to commit a felony.

It was an alarm given by Koerber's daughter Katherine, aged 14, that led to the negro's capture. The girl heard some one in her room. She asked if it was her father or brother. Seeing the negro jump behind the door she got out of bed. In order not to betray her intentions to the intruder, she hummed a tune as she walked out of the room to notify her father and brother. The men went to her room while she went downstairs to summon a policeman.

Thomas was captured after a sharp struggle. The negro drew a razor when he was cornered, but his captors took it from him.

STATE SENATOR ACCUSED.

Member of West Virginia Legislature Arraigned and Released on Bail.

CHARLESTON, W. VA., June 14.—(Special.)—The federal court grand jury, at the special session here, returned an indictment against State Senator M. F. Matheny, a prominent attorney of Raleigh, W. Va., charging him with the instigation and procurement of perjury.

The finding of the indictment was kept secret until today, when the case was called and Senator Matheny was arraigned before Judge Keller and plead not guilty to the charge. The hearing was postponed, and the defendant gave bond for his appearance. The indictment grew out of the connection of Senator Matheny with a counterfeiting case, in which he was attorney for the accused. And it was alleged procured false testimony for the defense. Senator Matheny says he will have no difficulty in establishing his innocence.

NAN PATTERSON PLEADS.

Says She Is Not Guilty and Gets Leave to Change Her Plea.

NEW YORK, June 14.—(Special.)—Nan Patterson, who has been indicted by the grand jury for murder in the first degree, for the alleged shooting of Frank T. Young, a race track bookmaker, in a hansom on Saturday, May 28, pleaded not guilty to the indictment today. The woman was taken before Judge Newburger in general sessions, accompanied by Messrs. Levy and O'Reilly, of her counsel.

Mr. Levy said: "The defendant pleads not guilty, with leave to change her plea by Friday."

"This is a practice I don't approve of," said Judge Newburger, "but I will give you until Friday in which to plead."

In the meantime Mr. Levy will serve notice on the district attorney that he will move to inspect the minutes of the grand jury.

C. of L., which preceded the Orange lodge conventions with sessions yesterday and last night, has elected the following officers for the next two years: Most worshipful grand master, George Montgomery, New York deputy grand master, John McDonald, Boston; second deputy grand master, George Carlisle, Pittsburgh; grand chaplain, Jacob Mundy, Cleveland; deputy grand chaplain, George Chambers, New York; second deputy grand chaplain, William Dawson, Boston; third deputy grand master, John Brown, Pittsburgh; grand registrar, L. G. Hudson, Chelsea, Mass.; grand treasurer, Thomas Thompson, Pittsburgh; deputy grand treasurer, A. J. Hall, Cambridge; sir knight pursuivant, Thomas Paisley, Pittsburgh.

TRACTION ROUTES CHANGED.

Braddock and Wilmerding Cars to Run on South Side—New West End Loop.

Braddock and Wilmerding traction cars will hereafter run on the south side of the river between Glenwood and Braddock, through Homestead, according to a new schedule which the Pittsburgh Railways Company will put into effect today. The cars will cross the Glenwood bridge to the south side and run through Munhall and Homestead by way of Eighth avenue and Mifflin township road to Duquesne junction. The change is expected to give better service, as the south side route is double-tracked all the way.

The new curve at Wood street and Third avenue has been completed and West End cars will run around the new loop—Smithfield street to Third avenue, to Wood street, to Water street and to Smithfield street bridge—beginning today. The terminus will be Wood street and Third avenue. Charleroi cars will hereafter leave the head of the Knoxville inclined plane at seven minutes past the hour.

TENTH ANNUAL MEETING.

Larger Building for First Ward Mission in Allegheny Is Wanted.

The 10th annual meeting of the Allegheny City Evangelical Union of the Methodist Episcopal church was held last night in the Buena Vista Street Methodist Episcopal church. The reports of the officers and committees were read. Addresses on the work of the union were made by the Rev. Dr. G. W. Terbush, the Rev. Dr. E. L. Eaton and A. M. Schoyer. The home mission committee reported that the first ward mission building was too small to accommodate the average attendance and asked that a new house be erected.

The following officers were elected: President, A. A. Horne; vice president, Harvey Henderson; secretary, A. D. Wilson; treasurer, William Hamilton. A board of trustees, consisting of one member from each of the 14 churches in the union, was elected.

DANIEL WILL FIGHT BRYANISM AT ST. LOUIS

Virginia Senator Experiences a Change of Heart on the Currency Question.

[Special Telegram to The Gazette.]

RICHMOND, VA., June 14.—Erstwhile friends and strong partisans on the currency question will be arrayed against each other at the St. Louis Democratic convention in the person of W. J. Bryan and United States Senator John W. Daniel of Virginia. The fight will come in the platform committee of which both will be members.

The Virginia senator was one of the original free silver party of Virginia. When W. J. Bryan came to the front and raised the slogan for the double standard, Daniel at once rallied to his banner and for eight years has done everything in his power for bimetallism. But a change has come over the spirit of his dream. At the meeting of the state Democratic convention he spoke with no uncertain sound on the subject. "We want a sound currency and abundance of it," he said, and those who heard him were filled with amazement.

Senator Daniel is for harmony before all else. He will oppose putting anything in the platform that can offend any Democrat, and when Bryan springs his attempt to secure a reaffirmation of the Kansas City and Chicago platforms, he will be stoutly opposed by Daniel.

UNION CHARGES MURDER TO CITIZENS' ALLIANCE

Declares That Explosion Was Due to Carefully Laid Plot.

[By Associated Press to The Gazette.]

DENVER, June 14.—Acting under instructions given by the 12th annual convention of the Western Federation of Miners, recently held in this city, the executive board of that organization tonight issued a statement regarding the recent disturbances in the Cripple Creek district, in which it says:

"We are fully convinced from information by trustworthy persons that the orirnal explosion and subsequent outrages perpetrated are not only the work of the Citizens' Alliance, but are thoroughly of the opinion that the whole matter was planned in advance. The very fact that union men are deported by the military is of itself sufficient to show that no evidence has been obtained against these men, for if evidence of crime was at hand does any reasonable man or woman suppose that the military commandant or the mob sheriff would be simple enough to deport to other parts the guilty persons? No, indeed. What evidence there is acquits the miners, but apparently fastens the crime upon the heads of hired assassins and thugs in the pay of the Citizens Alliance."

GRADY FOR CLEVELAND.

Tammany Man Thinks That He Can Be Nominated for President.

Senator Thomas F. Grady of New York is booming Cleveland for president. He says that the uninstructed delegates will be in control at the St. Louis convention. While he is instructed to vote for Judge Parker, he is of the opinion that Cleveland will come in as a dark horse. Senator Grady was here to make a speech before the Pittsburgh aerie of Eagles. Tammany is fighting Parker because ex-Senator David Hill is behind him. In 1892 Tammany was for Hill because he was against Cleveland.

William German of McKeesport has been appointed to a $1,500 clerkship in the office of the county treasurer. He will assist in the collection of the mercantile tax. The appointment was made by Auditor General Snyder several weeks ago, but not announced until yesterday.

TO USE WORD "AMERICAN" TO PREVENT CONFUSION

WASHINGTON, June 14.—In accordance with an order issued by Secretary Hay the inscriptions, "United States embassy" and "United States consulate" no longer will appear on the embassy and consular seals and in other places where they formerly stood. In their place on all the new record books and seals will appear the words, "American embassy" and "American consulate" and "American consular agency." There is a dignity and simplicity about the term "American" that the secretary likes, and there also about a dozen "United States" aside from the United States of America, a fact which lends to a great deal of confusion in foreign countries.

NEW YORK PROHIBITIONISTS ARE IN CONVENTION

OSWEGO, N. Y., June 14.—The Prohibition state convention met here today and will continue through tomorrow. Henry Wilbin of New York is temporary chairman. John McKee of Brooklyn and Alfred L. W. C. T. U. HELD SESSION.

Appeal to Mayor Hays to Stamp Out Cadet System.

As a result of action taken by the Allegheny county W. C. T. U., which convened in the Homewood Presbyterian church yesterday morning, a letter was sent to Mayor Hays signed by a committee of five, urging him to take steps to stamp out the "cadet" system in the county.

In the afternoon County President Mrs. H. H. Forrest, presided. Reports were read by the legislation committee to the effect that the Anti-Saloon league had appealed for financial aid, and co-operation was pledged. Mrs. T. Jones was selected as representative to the annual convention of the L. O. L. at Swarthmore, on June 28. Mrs. Elizabeth Cleverley reported on work done in prisons and jails. The session closed with a question box conducted by the president.

In the evening the Rev. Charles Wishart spoke on temperance.

CLEVELAND, O., June 14.—Barney Oldfield the widely known automobile driver, was today fined $10 and costs at the central police court for running his machine 30 miles an hour through the streets of the city. Oldfield's only excuse was that he did not realize that he was running so rapidly.

BIG BATTLE IMMINENT IN REGION OF HAI-CHENG

CZAR'S SUBJECTS FLY TO AMERICA

Finns and Poles Leave Russia to Escape Service in the Army.

MANY ARRIVE IN PITTSBURGH

Thousands of the czar's subjects are fleeing to America to escape conscription and active military service in the war upon Japan. Poles and refugees from many of the Baltic provinces are leaving their native land never to return, in this country they hope to realize their dream of freedom, and in coming hither they do not hesitate to express their antipathy for the rule they have escaped.

In the thousands of immigrants that are landing in the United States on every trans-Atlantic ship the majority are from Russia. They come well provided with funds in most instances and expect to settle in the northwest, in the country now largely populated by their old neighbors from Scandinavia.

On a Pennsylvania immigrant train of 14 coaches which arrived at the Union station yesterday afternoon were over 200 natives of Finland and Russian Poland, beside scores of others from interior provinces of the land of the czar. They were foreigners of the better class—shrewd and intelligent, and with more than an ordinary peasant's knowledge of current events. Seeing a newsboy walking across the station platform, two giants from Finland accosted the immigrant agent and inquired for the latest news from Manchuria.

Glad to Hear It.

"Gen. Stoessel has lost a leg," answered the agent in the language of his inquisitors.

With a pronounced grunt of satisfaction the Finlanders strode across the platform and repeated the news to a crowd of their fellow countrymen who sat at the window of their coach. Cheerful tidings had come, indeed, and there was a buzz with wild gesticulation. After a moment the two Finlanders returned and asked more questions. The agent interpreted the bulletins in the newspaper, and this was also repeated to the crowd in the coach.

"Are the people of Finland loyal to the Russian government?"

This question from a reporter for The Gazette was rendered into Finnish and repeated to the two giants. They laughed deeply, shook their fists and made more wild gestures.

"The Finns are loyal to Finland and Finland alone. We have been persecuted. Why should we weep at our persecutor's misfortune? We have left our country and will never cast our eyes on it again. We have left our homes, our parents and those we love. We feel free and more at home in a strange land. We want to become American citizens."

"Do you think Japan will win?"

The giants shrugged their shoulders. They were not men of great stature, but their broad chests, their sturdy legs, heavy jaws and swarthy features gave them the appearance of men of extraordinary muscular strength and of unexampled endurance.

Farmers, Not Prophets.

Could Japan overcome Russia? They had never entertained such a view of the outcome of the war. They had not privileges sufficient to think of Russian defeat while they remained in the jurisdiction of Nicholas II. In a land where the freedom of opinion was to be one of their novel experiences, the question had a new meaning. They pondered a moment and then addressed the interpreter cautiously:

"Finlanders are farmers, not prophets. We have looked upon Russia as a great mountain or a great frozen sea that cannot be moved. Poland is on the verge of insurrection, and in many places is discontent among the common people. A volcano may blow up the mountain and it may crumble; the ice may melt away—we do not know."

"Do the Finlanders want to see Japan come out victorious?"

The question was too pointed. It was evident the first time that these two giants had been asked a question of such import, but they were not entire strangers to a code of diplomacy.

"Finlanders want to see their land restored. They want to see their countrymen happy and contented."

Many of the immigrants expect to buy farms in the northwest, and entire communities are being transferred from the Russian provinces to the rich agriculture sections of Minnesota and the Dakotas. They said they had disposed of their business at a sacrifice in order to lose no time in getting away from the old country and the hated service of the czar.

HELD HEATED SESSION.

Presbyterian Presbytery Discussed Old Boundary Question With Renewed Vigor.

The closing session of the season of the Pittsburgh Presbytery of the Presbyterian church, was held yesterday morning in the Second church, Penn avenue, and was very spirited. The Rev. Herman P. Hezlep presided.

The Rev. Dr. G. S. Chambers of Harrisburg sent a letter which was read, "acknowledging the difficulty of reopening wounds when the presbyteries do not take the initiative." The letter referred to the old question of fixing bounds and stated that the synod's committee would meet in Pittsburgh shortly. The Rev. Dr. A. A. Kelly then named a committee to meet the Synod committee and to use every effort to secure no action. After a heated discussion the committee was discharged and a new one appointed with instructions. The Rev. Dr. J. C. Brice then filed a written protest, holding that presbytery had exceeded its authority. The Rev. Dr. J. C. Calhoun moved that it was not a protest, but an argument. The chair held it was a protest, but that Dr. Brice could not have it sent to Dr. Chambers.

Controversy of the Lawrenceville church with a organist over a contract, then led to heated arguments, but was finally referred to a committee of which the Rev. W. L. McEwan is chairman.

Conductor Killed in Wreck.

A broken flange caused the wrecking of a freight train at Stewart's station, on the Pennsylvania railroad, yesterday morning. Conductor E. E. McClintock of Wilkinsburg was killed and Vincent Fitzpatrick of Jeannette, riding on the train, was injured. Sixteen cars were demolished.

BIG RUSH FOR GAS.

The offer of the Philadelphia Company to make service line connections and set meter free of charge, to all who apply for natural gas now, has brought a rush of applicants who never used gas before. Natural gas is cheaper than coal. It's clean and safe. No coal to carry or ash to haul away. Women don't roast to death cooking in the summer and the house is always cool. To get free connections apply at once at No. 435 Sixth avenue, or any Philadelphia Company office.

"AJAX" AND "XX" ARE HOPEFUL

They Expect to Be Officers of the Porto Rican District Court.

JONES SHUNS AGUARDIENTE

Judge Charles F. McKenna of the Porto Rico district court will have some appointments to make. To date Pittsburghers are asking for two places. "Ajax" Jones and Charles (XX Coughdrops) Orton are the applicants. Both are likely to land jobs.

"Ajax" says that he has the promise of a position. He will either be a tipstaff or a messenger. In either place he will be an adornment. He says that he has promised the judge to sidestep all invitations to sip aguardiente and has entered into an agreement not to introduce the "bones" on the island or to hurl the natives from the "vortex into oblivio."

Incidentally he is the best messenger in the United States. This is proven by the fact that he has filled the position for nine Pittsburgh mayors and has had the distinction of being recorder of Pittsburgh for three days and seven hours. The service of chief executive was performed during the period between the removal of A. M. Brown and the induction into office of J. O. Brown.

"XX" is also confident that he will be an officer of the Porto Rican court. As a son of a veteran, "XX" performed a service during the days of the Soldiers' Civic league which commands attention from the Republican party. The leaders are all back of him. They insist that appreciation of his work be shown—numerous letters have been written in behalf of the man of coughdrops and the impression prevails that he will be appointed. Pittsburgh will not be robbed of the citizenship of the men. The Porto Rican court will not sit continuously. When it rises, "Ajax" will return to his messengership at Republican headquarters as if "XX" will don his buffalo coat and again hand out coughdrops at a nickel a throw.

WORKMEN TO PARADE.

Many Candidates for Executive Positions of Labor Day Demonstration.

Since Chairman Charles W. Winslow of last Labor day's demonstration, has issued a call for a convention to be held in Old City hall, June 26, to elect executive

John Fernau.

officers for next Labor day, much interest is taken in the affair. Indications are that the parade will be composed of the largest body of laboring men ever seen marching.

There promises to be a warm contest for chairman of the demonstration. Each organization favors one of its members. The United Labor league is placing John Fernau, master workman of the Pittsburgh district of the Knights of Labor, on the ticket. He has been active in all Labor day demonstrations and understands the work thoroughly.

ELKS' MAMMOTH MINSTRELS.

Up-to-Date Show to Be Given in the Nixon Tomorrow Evening.

Members of the Pittsburgh lodge, Benevolent and Protective Order Elks, feel confident that of the many local productions which have been presented during the past few weeks, none will excel in artistic point of view the annual show given by the Elks' Mammoth minstrels at the Nixon theater, tomorrow. This performance is under the personal direction of James P. Dunlevy, who has earned favorable comment for the direction of many amusement enterprises in this city. Mr. Dunlevy has been drilling the performers for some weeks past and is delighted over their rendition of up-to-date songs and dances.

The ballads chosen embrace the latest productions of the publishing houses. James Quinn, a tenor of more than ordinary ability, has a sweet song; D. J. Davies, one of the best-known tenors among the Welsh citizens, is also on the program for a ballad. The end men will have coon songs. They are the only members of the show who will don black face.

"Dal" Jefferies, the rag puncher, will introduce his act and illustrate the clever art of gymnasium practice. Miss Charlotte Tompkins, a neat little vocalist and dancer, will also perform. Mr. Dunlevy and his company will display their little sketch, "Life in a Gymnasium." In this Mr. Dunlevy will deliver his popular recitation, "A Finish Fight." The sale of seats at the theater will be held today and tomorrow.

Money for Pittsburgh's Fourth.

Contributions to the amount of $235 for the Pittsburgh Fourth of July fund were received yesterday at the mayor's office, as follows: C. D. & E. Telephone Company, $100; Joseph Horne & Co., $50; Western Savings and Deposit bank, $25; Commonwealth Real Estate & Trust Co., $25; Armstrong Bros., $10; James H. McQuaide, $25. The total amount of the fund to date is $1,620.

MARSH MADE HIGH DIVE DESPITE STIFF BREEZE

Daring Leap of Diver at Carnival Cheered by Large Crowds.

Not since the United Labor carnival opened its doors last Saturday at Recreation park, Allegheny, have such crowds attended as were present yesterday afternoon and last night. The Pittsburgh Railways Company have put on extra cars to accommodate the public, and from now on it is expected the seating capacity of the big center ring will be taxed to the utmost.

Manager Berger announced yesterday afternoon that Tony Castalino, the man who loops-the-loop on a bicycle, had been so painfully hurt by his recent falls that the act would not be given until today. Castalino is badly crippled, but expects to have the stiffness out of his injured leg today.

All the other performances were carried out perfectly, and the introduction of "Bonner," the trained horse, added an enterprising feature to the program. This animal is another Jim Key, and displays wonderful intelligence. The free shows along the Streets of Cairo are popular, and the huge ferris-wheel, also free, was kept revolving continuously last night.

The danger of the 110-foot dive that is made at each performance by Marvelous Marsh, was appreciated last night by the crowd when Manager Berger endeavored to persuade Marsh not to make the leap at the evening performance. A high wind was blowing, and it was feared that this would cause Marsh to fall outside the six-foot tank into which he plunges. But Marsh, after carefully preparing at the top of the ladder, made the long drop successfully and was loudly cheered by the crowd.

GRAHAM WILL RESIGN.

Head of the American Sheet and Tin Plate Company Retires July 1.

W. T. Graham, president of the American Sheet and Tin Plate Company, will retire from that position on July 1, presumably to accept the presidency of the American Can Company, in which he is deeply interested.

Mr. Graham is best known to the steel trade as president of the American Tin Plate Company. He was chosen head of the sheet and tin plate company when the American Sheet & Steel Company was merged with the tin plate company, January 1.

Who will succeed him is not yet known. There have been rumors of the change for some time past, but nothing definite has come from an authoritive source as to the new executive of the big concern. C. P. Bray, first vice president and chief engineer, and Eugene W. Pragny, second vice president, in charge of the sales department, are both mentioned as possible successors.

FOURTH FUND GROWS.

Allegheny Will Have Fine Pyrotechnic Display on Monument Hill.

Allegheny's Fourth of July fund grows rapidly, the amount to date being $1,559.50. The contributions received yesterday being as follows:

Previously reported, $1,119.50; Kate A. Jamieson, $25; Thomas Donaldson, $25; I. S. Kasberger, $5; Henry Wheeler & Son, $5; Henry Facit, $5; James McClurg & Co., $5; John Ollitte & Co., $5; R. L. Mathews, $10; Joseph M. Singer, $5; Peter Partnac, $5; Paulim Miller, $10; Albert Lhota, $5; Gustave Miller, $5; S. C. Stuehler, $5; Mrs. John Golden, $10; Margaret Mulligan, $5; Jacob H. Dietz, $5; Andrew A. Artz, $5; George A. Pardicen, $5; Charles C. Tucks, $5; William V. Moeller, $5; Charles Hansen, $5; Central District Printing & Telephone Company, $100; Metz & Miller, $5; H. E. Emmet, $10; L. Fortenbacher & Son, $10; George W. Winter, $5; John S. Borland & Co., $7; Max Klein Sons, $5; F. Tschudy, $5; C. Meder, $5; cash, $1.23; total, $1,559.50.

THREE HOMES WRECKED.

Gasoline Stove Explosion Sets Fire to Houses in Second Avenue.

A gasoline stove exploded at the grocery store of Michael Brown, 2612 Second avenue, shortly after 6 o'clock last night and resulted in burning Brown and the almost total destruction of the three houses. The stove became overheated. Brown filled the burning fluid thrown over him, setting fire to his clothing. His injuries are not serious.

The adjoining houses, both frame were set on fire. Before the firemen put out the flames both houses were practically destroyed. One house was occupied by Andrew Yousoff and the other by John Sachick. The inmates escaped without injury. The total loss was about $4,000.

MYSTERIOUS ASIA.

One of the Interesting Features of the Building Trades Council Carnival.

"Mysterious Asia," introducing Syrians, Moors, Arabs, Persians, Afghans, Turks, and Bedouins, in reproductions of their daily life, customs, sports, etc., will be presented at the midsummer festival and carnival, to be held June 27 to July 9, by the Building Trades council. The grounds at the Wabash park, South First and Carson streets, are being arranged for the event.

The committee in charge made arrangements yesterday for the production of the "Grecian Stadium." This is a complete circus. With it are the Steiner brothers, acrobats; Monsells and Russell, aerialists; Blaze, unicyclist; Laverne, strong man; Kihiro, ascensionist; Potter trio, gymnasts; Mlle. Clarice, in the cloud swing; the acrobatic kangaroo; Senorita Cordova, the snake queen; the high-diving donkey and many other acts and actors.

The Polite Vaudeville Company will give a continuous performance. Among the acts will be the high-diving of Keamey P. Speedy, the world's champion highest diver. He will dive from a height of 125 feet. The Duquesne Greys will give daily drills during the carnival.

CITY TO INSTALL METERS AT ONCE

Director Bigelow Prepares to Purchase Thousands of Them This Summer.

NEW WATER RATES NEXT YEAR

Director Bigelow is preparing to install water meters by the wholesale in Pittsburgh this summer, and at the next meeting of councils an ordinance will be introduced authorizing the director to purchase and install thousands of meters.

A. B. Shepherd, superintendent of the water bureau, and Morris Knowles, chief filtration engineer, were in Columbus, O., yesterday gathering data about the working of meters there. They were in Cleveland the day before spending a day in each city. They will return to Pittsburgh this morning and will lay before Director Bigelow the information they have gathered.

"We will start at once to put in meters in the East End and downtown," said Bigelow, yesterday. "While the meters will be put in use immediately there will be no change in the water rates until next year. We will simply observe the meters inspected regularly this year and keep a record of the amount of water used in residences, business houses, manufacturing establishments, etc., for the purpose of framing a new water schedule next year.

"By next year we expect to have meters in general use throughout the city and all consumers will then pay by meter rate. Radical changes must be made in the water schedule to make it conform with meters.

"It will be for councils to say when these meters will be put in, but we expect them to be put in soon. The work will be started as soon as possible and will be continued until the whole city is supplied. We will not have to wait until the people have approved the additional bond issue on July 12, because we have all the money we need for meters from the last bond issue of $2,500,000."

Controller Larkin said it would be necessary for councils to pass an ordinance authorizing the director of public works to purchase meters and he must receive bids on them. There are a number of different kinds of meters in the basement of the city hall which the water officials have been experimenting with for some time.

Director Bigelow has estimated the cost of meters to supply the entire city at over $900,000 and councils will probably be requested to authorize the expenditure of this amount of money for meters. It has been generally supposed that Bigelow would wait to introduce meters contemporaneously with filtration, but his statement yesterday shows that he intends to have the water service metered long before that time.

TO HOLD CONFERENCE.

Students Attending School of Method to Confer With Clergy.

The second of the four-day session of the Pittsburgh School of Method opened in the Pennsylvania College for Women yesterday morning with devotional exercises with over 300 students attending. Mrs. M. G. Kennedy then spoke interestingly on "Illustration," setting forth where and how to rivet biblical features upon the minds of scholars. In the afternoon the various courses under their respective instructors were given, the Rev. O. H. Phillips taking the place of the Rev. L. W. Rainer in the "training" class, the latter being ill.

Preparations are being made for a reception to be held in the auditorium tomorrow afternoon, when all students will be assembled in one hall and when numerous members of the clergy and Sunday school superintendents are to have a general conference.

Today's Auspicious Reductions on Millinery.

Never were prices brought down quite so low for handsome conceits to wear on the head.

NO woman should say, in view of the following underprices, that she is not able to own at least a half dozen pretty hats. Her statement would be untenable, no matter what the condition of her purse. The very idea of disposing of millinery for such prices, even before Summer is here by the almanac, is in itself unusual. Then add to that the freshness of the goods, their up-to-the-moment style, and you have an occasion that is rare indeed.

The major portion of the news was given yesterday afternoon but we have a bit of supplemental news with which to top off the re-publication this morning. Here it is—

WOMEN'S UNTRIMMED HATS AND TRIMMED SAILORS—A Great Lot of Them—Heretofore Sold for 50c, 75c and $1.00, Today for . . . } 15c each

That's enough to set any woman thinking of where low prices are supreme—especially the woman who has the knack of trimming her own hats. Other reduced prices as follows—

Children's Trimmed Hats—

This is a lot, recently purchased, of the most fetching hats in Tuscan braid—white and all colors—becomingly trimmed with flowers and ribbons. They just arrived in the department yesterday and will be ready today at these remarkable underprices—

$1.00 each for $2.50 trimmed Tuscan Hats.
$1.50 each for $3.00 trimmed Tuscan Hats.
$1.75 each for $3.50 trimmed Tuscan Hats.
$2.50 each for $5.00 trimmed Tuscan Hats.

Trimmed Hats for Women—

The entire line of trimmed hats and toques is reduced to prices further lowered than any we have heretofore quoted. Examples—

$ 7.50 Trimmed Hats and Toques at $ 3.50.
$10.00 Trimmed Hats and Toques at $ 5.00.
$12.50 Trimmed Hats and Toques at $ 6.50.
$15.00 Trimmed Hats and Toques at $ 7.50.
$20.00 Trimmed Hats and Toques at $10.00.
$25.00 Trimmed Hats and Toques at $12.50.

Ready-to-Wear Hats, Half and Less—

Golf Hats, Toques, Turbans and other styles of hats, at these great reductions—

At $1.50 brought down from $ 3.50.
At $3.00 brought down from $ 7.50.
At $2.50 brought down from $ 5.00.
At $5.00 brought down from $10.00.

$1 for $3.50 and $5.00 Hats—

This is a lot of prettily trimmed hats, but each one in the collection is slightly mussed from handling. The price of $1.00 is really less than the untrimmed hat is worth.

Untrimmed Hats—

Today we will sell untrimmed Sailor Hats for women at 25c each, reduced from regular price 50c.

Artificial Flowers, Little to Pay—

Today we will offer Artificial Flowers, many different varieties, at 15c a bunch, reduced from 50c, and at 25c a bunch, reduced from 75c and $1.00.

Fashionable Summer Weight Shoes for Women and Children.

Every year there seems to be more oxfords worn than the preceding one. Time was when only a few people thought of wearing low shoes during warm weather, but now they are universal. Men and women, boys and girls jump into them at the first peep of hot weather, and sometimes have to go regretfully back to the high shoes again until real Summer appears.

Our line of low shoes includes every sort, oxfords for the street, with good flat walking heels or Louis XV. heels, dress oxfords in great variety of styles, house slippers bedroom slippers, etc. And just as large assortment for the children.

Women's Vici Tan light turn sole Oxfords, French heel, $4.00.
Women's Tan Street Weight Oxfords, blucher cut, new cadet heel, $3.00.
Women's White Canvas Oxfords, street sole, cadet heel, $3.50. These promise to be very fashionable indeed during the summer of 1904.
Women's Patent Ideal Kid Oxfords, light weight, Louis XV. heel, very specially priced at $3.50.
Women's Bedroom Slippers, light in weight and with pompons—black, tan and red, $1.00.
Misses' and children's button Boots, in tan—we had so many inquiries for these that we set the manufacturers at work on high shoes of tan leather, and here they are early in June. Sizes 11½ to 2, all widths, splendid quality, $3.00.
Children's Russia Tan Shoes, welt sole, sizes 8½ to 11—best grades, $2.00.

A Note of Exclusiveness in the Art Needlework Dept.

The Germans are great folks for needlework—always busy—the interims of labor lightened with the pastime of needlework. So expert are they in many branches of the art that their fingers seem to move through a maze of fancy stitches without volition of the mind.

One of our buyers while in Germany in the early late spring saw some of the finished product of the German handiwork, which he thought would please Pittsburgh Women. It's entirely new to Americans and very high class. Embroidered Pillow Tops, Headrests, Pin Cushion Covers, Doylies, Centerpieces, all finished and ready for use. 50c, $1.00, $1.35 and up to $3.75 each.

But the above is not all. He also bought a number of pieces of the same class of needlework, already started by the Teutonic needlewomen and which we have for sale, together with enough of the correct sewing materials to finish the pattern.

New Yoke and Collarettes, 50c Each.

We don't have to tell you how very much worn are these yokes and deep collars of white. You can see that for yourself. But, perhaps, you thought them expensive. Not a bit of it. We'll sell you a real nice one today, of white mull trimmed with Val. lace, and some have pleatings trimmed with lace, at 50c each. Think of it!

New Washable Stocks, in white and colors, 25c each.
New Ruching, white and colored, 15c a yard.
All the above on special table.

Fire Screens, Den Screens, Draught Screens.

Whichever of these you need, come right up to the fourth floor, West, and make your selection. We're sure your choice is here and only needs seeking out. Some of them neat and practical, some of them gorgeously ornate and practical withal. And prices brought down to the lowest notch.

Fire Screens, all sizes, $1.00, $1.25, $2.50.
Draught Screens, four fold, black and gold, and some with colored decorations, $3.50 each.
Den and Dining Room Screens and Screens for the library and any other room of the house, or office, for that matter, at $5.00 and up to $40.00.

About Those Summery Woolens, Voiles and Mohairs.

If you are going away for the summer you must have at least one light weight woolen gown, and the probabilities are you'll find use for two or more. On the other hand, if you stay at home a street dress of Summer woolen is a necessity, so there you are. Today opportunity to supply yourself at least expenditure.

New Mohairs are arriving continually—fine imported mohairs in the desirable shades—46 inches and up to 50 inches wide, 38c, 50c, 75c and up to $2.50 a yard. No other fabric is so satisfying for traveling and none to equal it for bathing suits.

A June Special in Voiles—We speak of French Voile, regularly $1.00 a yard, in cream, gray, navy, tan, garnet, reseda, royal and violet, today 68c a yard. These voiles are so good for the money and the colorings are so desirable that we merely ask you to see them. Having seen, we know you'll not be content until you have a dress pattern from the collection.

Fans for Graduates and Fan Novelties.

For some reason or another it has become a custom to present fans as graduating presents to girls. We don't know why or how it came about, but it certainly is a very pretty custom—a happy way for friends and acquaintances to show remembrance of the great occasion.

Fans in pretty Pompadour shapes, silver and gold spangled, also with colored miniature figures, bone sticks prettily carved, $2.25, $3.00, $3.50, $4.00, $5.00 and on up the gamut of prices to about any figure one would care to pay.

Now for the novelty—we present it to you in the shape of a big line of Ningpoo Fans—use them for a fan, or delight the children with a garden hat made from same, or turn them to practical use by utilizing them for lamp shades or fancy corner pockets. Only 5c each.

Stop in today at counter, center aisle, East, and see them.

If You Haven't Stored Your Furs

make haste and do so at once, and have the matter off your mind for once and all. The chances are, if you delay the matter too long, you'll be up and away on your Summer outing and forget the precious pelts, leaving them to the tender mercies of the moths.

When you put them in our care you know they are safe, safe from that insidious insect, the moth, safe from fire or other accidents, and in good condition when next you want them.

As for charges, they are trifling compared with the service.

Wednesday, June 15, 1904.

The Gazette desires to call the attention of those of its readers who contemplate summer trips to the announcements of the many summer resort hotels published on page 14 of this issue.

Secretary of State Hay has ordered that the phrase notifying the public abroad that there are "United States embassies" and "United States consulates" shall be changed so that the nation's foreign agencies shall be known as "American" embassies and consulates. "What's in a name?" Secretary Hay says that in this instance there is the degree of dignity and accuracy. There are many United States and but one nation that is known throughout the world as American. Really we cannot say that the difference is important. American citizen is a proud title, and yet it attains its significance because it refers to the United States of America.

William W. Moody, secretary of the navy, is being discussed as the probable successor to Philander C. Knox as attorney general. It is said that President Roosevelt has decided upon the change. There is no visible reason why it should not be made. Secretary Moody had attained fame as an attorney before his appointment to the navy portfolio and since then has given evidence of high legal ability. No doubt he would make a good attorney general. So would Secretary Taft of the war department. The president has good legal talent available all around him, almost if not quite equal to that of the attorney general who is about to retire from the cabinet to take his place in the senate.

Two of the St. Louis boodlers have at last been convicted and sentenced by order of the supreme court of Missouri, while the cases of two others are remanded for retrial with certain law points decided. This struggle between Joseph W. Folk, representing the people of Missouri, on the one side, and the boodlers and the machine on the other, has challenged national, even international attention. There will be general congratulation that Mr. Folk has won even a limited victory, because it is a blow at the system that seeks to make government an agency for granting special privileges at the expense of the common people and at the cost of corruption in public places. But this blow has not crushed the system. It is difficult even to appraise the damages. It has shown that there is a way and therein its value lies.

To M. G. Palliser, in charge of the Tammany movement for an anti-Parker mass meeting in New York, one William J. Bryan has written a lengthy epistle commending the movement. Mr. Bryan takes advantage of the occasion to hurl anathemas at Judge Parker for his silence upon public questions and at the friends of the judge for the supposed reason that none of them are committed to the wild socialist doctrines of the aforesaid Bryan. It might be asked with pertinence whether the public knew anything of Bryan's views prior to the meeting of the Democratic convention in Chicago in 1896. Since then the public has known too much of those views and has grown increasingly averse to them and the fallacious arguments with which they are supported. Mr. Bryan talks enough for two and his blather is more offensive than Judge Parker's silence.

Mr. Ion Perdicaris, the American citizen who has been held captive by Moroccan bandits, has an international reputation for broad hospitality. The geniality of his disposition appears to have been in nowise abated by his captivity, for in a letter to a friend he says that "Raisuli is the most interesting and kindly-hearted native gentleman it has been my fortune to have known." Mr. Perdicaris further says that the abduction was not prompted by personal spite, but was an act of reprisal against the local authorities, who had treated Raisuli badly. Mr. Perdicaris writes as if the affair was a pleasant picnic so far as he is concerned, which speaks well for his nerve and gaiety under trying circumstances. Even if Raisuli is as mild a mannered man as ever cut a throat, the danger of his company could not be quite forgotten. A last satiric touch is put to the affair by the news through other sources that the gentlemanly brigand is not enjoying the situation as much as Mr. Perdicaris himself, but is suffering from nervousness and insomnia. It is well known that there can be too much of a good thing.

Capt. Pratt, who has had charge of the Indian school at Carlisle for many years, will retire at the close of the present month and will be succeeded by Capt. William A. Mercer of the Seventh cavalry. Capt. Pratt's retirement was voluntary, although it is believed that he was prompted by pique in asking to be relieved, as he was passed over in the promotions made since the Spanish war. Capt. Pratt has probably suffered because he was unable to agree with the amateur reformers who make a specialty of Indian affairs and whose views are more sentimental than judicious. At the same time he has some fads of his own. His successor is experienced in the management of Indian affairs, in which he has displayed great ability, energy and initiative under trying circumstances. He has had to fight powerful interests in defense of the rights of Indians under his care and has shown both tact and resolution. He has worked among the Indians for 11 years, and in the course of his management of various agencies has been responsible for the discipline and efficiency of 44 Indian schools of all kinds. His qualifications for the superintendency of the Carlisle, which has a noble record, are therefore most ample.

Metering the Service.

Supt. Shepherd of the bureau of water and Morris Knowles, engineer of the bureau of filtration, are visiting Cleveland, Columbus and other cities collecting information pertaining to meters. Director Bigelow says the purpose is to get the best information obtainable for immediate application in Pittsburgh. When the gentlemen named return, meters will be installed at certain places in Pittsburgh and careful records will be kept, upon which the next water assessment will be based, and then the work of installing meters will be pushed to the limit.

Not in a long time has the public works department voluntarily begun as commendable a movement as this. Metering of the service should precede, as far as possible, filtration of the water supply, for it is inexcusable extravagance to filter water to be wasted. Every intelligent citizen knows the water service of this city should have been metered long ere this. The work was ordered in connection with the approval of filtration five years ago, and if the director had made the vigorous start he is now making the system would have been complete before this time and some millions of dollars less than the estimates would have sufficed for the filtration plant. The duty was neglected, however, for some reason never satisfactorily explained, and the public may console itself with the reflection that it is "better late than never."

Had the meter installation been pressed after being authorized it would long ago have disclosed the leakage from reservoirs and mains; it would have stopped private waste; it would have led to a readjustment of rates on a more equitable basis, and it would have given the South Side water company something to think about besides the price it may be able to compel the city to pay for the privilege of distributing water to its citizens below the Monongahela river. It would have accurately indicated the defects in Highland reservoir No. 2 and would thereby have secured benefits to the city. It is pleasing to note that Director Bigelow has finally awakened to the immense importance of this matter.

Don't Tear Your Shirt.

To the Editor of The Gazette:

Sir:—Please don't tear your shirt, editorially, over the Cripple Creek situation.

H. R. ROSE.

Allegheny, Pa., June 14.

The above communication came through the mail yesterday without injury to other contents of the pouches or the pouches themselves. The request was wholly unnecessary and the suggestion is a trifle vague. No shirt has been torn or endangered in the sanctum and the editor has not even rolled up his sleeves to go thoroughly into the subject. Editorially, The Gazette has simply spoken the truth about "the Cripple Creek situation," and condemned the injustice and lawlessness of both parties to the dispute.

With a further assurance that the editorial linen will need no mending, the opinions of The Gazette may be repeated. It is the inalienable right of every workman to quit his employment if its conditions do not suit him. It is the equal right of any workman to accept that employment if the conditions do suit him. Each man has a right to belong to a union and every man has a right to elect for himself whether he shall join such an organization or not. No man or set of men may rightfully interfere with any other in the pursuit of his legal and peaceful avocation, and it is the duty of government to protect the citizen in the exercise of his constitutional rights. No man has a right to voluntarily remain idle and become a burden to society.

The above are general principles. When they were violated by the interference of idle men with men who desired to work it was the duty of the government, local first and then state, to suppress that lawlessness. When to interference merely were added murder and arson it became the duty of the authorities to take vigorous measures to bring the perpetrators and all accomplices to justice. When the outlawry took the form of wholesale murder and riot, the duty of government was not less clear and there could not have been in the breast of any decent citizen any sympathy for the fiends in human form capable of such outrages. But when the power of the state, invoked for the preservation of peace and order, is used indiscriminately to prohibit membership in labor unions, irrespective of culpability in connection with the crimes committed, it becomes tyranny. True, tyranny in this case—as is usual—was preceded by anarchy. Yet neither one excuses the other. Colorado needs to pull itself together to restore the reign of law and exact justice, and we desire to remind our correspondent that Colorado is much more in need of his advice to not tear any shirts than is The Gazette, editorially.

At It Again.

Controller Larkin's genius for making trouble is most mischievous in his dealings with the health department. He is an economist of the kind who save at the spigot and waste at the bung hole, and nowhere is that policy more dangerous than in dealing with matters concerning sanitary administration. In order to make a fictitious show of economy the regular appropriation for the health department was pared down so that it was unable to discharge its proper duties, and in consequence there was a rapid spread of smallpox so that at one time the city was exposed to great risk of an epidemic. Eventually a bond issue had to be made, and far more money was spent in getting the disease under control than would have been needed to prevent its spread. While the department was fighting the disease he embarrassed it a great deal by his arbitrary interference for which there was no legal or moral justification. It appears that he is at it again and is assuming the right to control the operations of the department.

It does not speak well for the ability of Mayor Hays' administration that he does not put the controller in his place and keep him from making such a nuisance of himself. In his place he is a good man, watchful of the accounts and exacting as regards all legal requirements. That is what the controller is for, but he is entirely out of his place when he assumes to dictate policy. As a matter of legal right he has no authority whatever over health department expenditures. If the accounts are duly authenticated the city is bound to pay them, even if appropriations are exceeded. The law bestows upon health departments discretionary authority in such matters for obvious reasons. The power which Controller Larkin has arrogated to himself of holding up the department's payroll and accounts has no legal basis, and he has been able to exercise it solely because those affected dislike the trouble and expense of going into court and applying for a mandamus. There is no doubt that one would be granted. Whenever the controller gets into court he is sat upon pretty hard, and it seems time that another lesson of the sort was administered to him.

By GEORGE C. JENKS.

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, June 14.—Mrs. David Rothschild's disagreeable discovery that her collection of jewelry is worth about $15, instead of the $150,000 as she supposed, is a reminder of the general understanding that many wealthy women wear "paste" while their real gems are packed away securely in a safe deposit box. In most instances the "phony" stuff glitters in the electric light with as much insistence as the real article. Of course, the wife of a man worth $100,000,000 is not troubled particularly when she sees some expert from Maiden Lane looking over the display on her bosom or in her hair with a smile that tells of his reading through the deception. She knows that she could, if she chose, wear diamonds, rubies, amethysts and emeralds to the value of an Indian rajah's fortune. In all probability the Maiden Lane jewelry man knows it, too. What amuses him is that $15 worth of precious stones can make as deep an impression on the vulgar mind as the most gorgeous selection of priceless ornaments that Tiffany could provide.

As for Mrs. Rothschild, she has not the soothing knowledge that she has real jewels hidden away. Her husband has been found guilty of swindling, and is making mats at Sing Sing, while she has practically nothing of value except the peck of colored glass which the pawnbroker appraised at $15 for the lot yesterday. Mrs. Pierre Lorillard is said to wear nothing but imitation jewelry since her magnificent collection was stolen and recovered in London some time ago. One of the several big firms in New York which manufactures "paste" has just sent to Newport the last of a complete set of duplicates of everything possessed by a prominent society woman. These substitutes cost a great deal more than $15, for good work of this kind is not cheap. They are made by workmen who have the real gems before them, so that the reproductions shall be exact. After all, the main pleasure in having valuables is in the knowledge of their possession. What one wears is of secondary importance so long as they flash prettily at the opera and elsewhere.

Butler Boy a Graduate.

Wilber A. Blain of Butler, Pa., is a member of the "Oughty Four" graduating class of West Point academy. There was a review of the corps this afternoon by Sir Mortimer Durand, British ambassador. Secretary Taft and Gen. Chaffee were present. All social functions in connection with the graduating class have been omitted on account of the dangerous illness of Lieut.-Col. Wright P. Edgerton, professor of mathematics. His home was formerly at Akron, O.

Music Not Hot Enough.

Here is one I picked up today in "Tin Pan alley." A song and dance man in "The Southerners," at the New York theater, has not been satisfied with the tempo in which his music is played by the orchestra under that veteran director, Signor de Vovelis, and last night after the performance thus addressed that authority: "Signor, you never get the temperature of my music. How can I make good without the proper temperature?"

"Get a thermometer," was de Novelis' gruff reply.

More Trouble for Broadwayites.

The announcement that the older portion of the Hoffman house is to be torn down is something of a shock to the old-time Broadwayite. This hotel is part of the history of Manhattan, and few are visitors to New York who have not been in its spacious lobby and famous "art gallery" with its enormous Bougereau painting of nymphs and satyrs, at some time or other. The house has been the informal headquarters of the national Democratic committees for more than 30 years, and has long been a favorite resort of turfmen. Horse news can always be acquired there by insiders, and many a spectacular "tip" has made money—or lost it—for plungers who cared to use the information.

E. S. Stokes, who killed Jim Fisk, was manager of the hotel for several years. The part to be razed and rebuilt in modern style occupied two-thirds of the block from Twenty-fourth to Twenty-fifth streets. Work will begin this summer, and Broadwayites will have another steeplechase collection of building rubbish, plank bridge and general fuss to make them growl as they pass the spot.

Gorged by Immigration.

With the report that the White Star line will reduce its western steerage passage rate to $8 75 there is more excitement at Ellis Island. The immigration officials are pretty well swamped by the rush of immigrants. It is feared there will be 10,000 of them on the island by the end of the week, less the few that will get away in the meantime.

Indorsed by the Wealthy.

The decision of a St. Louis judge that a physician's fee should be regulated by the value of his professional services, taking both his time and skill into consideration, and not by the wealth or poverty of the patient, is of interest to New Yorkers, as well as to the people everywhere else. One reason the decision is much talked of here is that the patient in connection with whose case the decision was made is a resident of this city. It is the custom of many doctors to measure the pocketbooks of patients in making out their bills. Only a portion of this population—that which has a bank account of healthy size—indorses the decision of the St. Louis judge.

Nothing to Do But Settle.

In selecting clerks for various counters in a big department store the brightest looking girls seem to be chosen to dispense candies and confectionery. The wisdom of this was exemplified in my range of vision today. A young man in one of the great emporiums in Sixth avenue ventured too near the candy counter. Instantly the pretty girl in charge thrust a carmel into his mouth with one hand and a pound box of the same sweeties into the other as she chirped, with a fascinating smile: "Is not that nice?" What could the young man do except hand over the money, when she added, still smiling, but in a business like tone: "Sixty cents, please."

Conducts School of Shoplifting.

The police have dug up a school of shoplifting, conducted by a woman, among the hills in New Jersey, just across the Hudson. The pupils are young girls, who work the department stores in Manhattan. Two of them, who were arrested yesterday, were found to have in their possession small articles aggregating $50 in value. The gentle "Fagin" has not yet been caught, but detectives are scouring the country back of the Palisades.

The Quiet Observer

By ERASMUS WILSON.

Do you ever go back to school again—back to the old log school house, or little red school house, where a master ruled and reigned supreme?

This type of school house and school master were not of so long ago that even some middle aged folks of today should not have known them. They continued longer in the country than in the city, but the new order of things made it necessary for them to go.

That the new order is a very great improvement on the old still continues to be a debatable question with some of the log school house set, while there are many of later date who stoutly contend that the passing of the school master was, to say the least, not a good thing for the country.

But then we can call back our school masters and return to the old school house whenever the humor to do so strikes us, which it does now and again. The sight of an old school book is apt to start us off to school again; particularly if another old school boy happens along about that time.

Talk about an angel and right away you hear the flutter of its wings. Here comes an old school boy from Somerset:

* * * * *

Mr. Quiet Observer:—That I read your column in The Gazette goes without saying. It reminds me of the Spectator, that I read when a boy, and still read with interest.

I was especially pleased by your reproduction of old songs and poems. All these have their history, and they delighted the people, old and young, in the days before this strenuous age began.

I think that most of the boys and girls of the present will miss a source of delight which we of a former generation possess, namely, the pondering over the books that they studied, the actual books with all their associations, for now the state furnishes the books.

I buy the books that my boy studies in order that he may have this source of pleasure. Last winter he read Caesar at school, and I often compared it with the one that I read, an old Bullions' Caesar, bound in white sheep, with a halo of pleasant and some unpleasant memories around it, and the comparison was not in favor of the modern book. He read the notes of my old book with pleasure and the lexicon of names, places and objects with delight. There was no vocabularly, and he said, "How did you get out your lessons?" I answered, "I used Ainsworth's Latin dictionary."

His book possessed a vocabulary, but the boy that depends on a mere vocabulary never can acquire the command of a language that he will possess who hunts out the suitable meaning in a good dictionary, for while hunting the proper meaning to be used now he will, unconsciously, have other meanings fixed in his mind.

The other day he came in and I handed him a Virgil. (this is the old spelling, they spell it Vergil now) by the same editor as the Caesar, six books of the Aeneid and the Bucolics, complete with notes and a vocabulary, beautiful plates, beautiful printing, all lovely. I told him I would have thought myself in Paradise with that book at about his age.

"What Vergil did you use?" he asked. I went and got him the book, an old Delphini edition, full of fond memories of the past to me, notes all in Latin, an ordo, that is to say a setting out of the order in which the words must be translated, and a clavis, giving the various meanings of the words, not a mere vocabulary.

I told him the history of the Delphini classics, why they were prepared, and set him to read the history of the Dauphin for whom they were prepared, and then he looked at the old book and thought it must have been very hard to study. And I gave him the names of my class, all dead but one and me, and told him how I'd learned more Latin from the old book than from all others combined.

And then there are the old arithmetics. I can shut my eyes and see page after page of Ray's part III., and the algebras and the geometry, Davies legendre—I have them all, and all are filled with old and sacred memories.

Are the new an improvement? I fear not.

The boy came in last winter and asked me what is a straight angle? It startled me. I said that was a contradiction in terms. "But there is a straight angle," he said.

Then I looked at his book and there it was, a straight angle is 180 degrees, and if you take hold of the perpendicular and turn it the reverse way of the movement of the hands of a clock until it is horizontal you have a straight angle, and I said, "We used to say two right angles, but ask your teacher what it would be if you'd turn the perpendicular clock-wise until it would coincide with the base."

"Oh, that would be no angle!" he said; and then I looked further and I found such words as radian and perigon and steragon and some more, and then I hunted up my old Davies legendre and showed him the definition of angle, and told him who Dr. Davies was, and wound up by saying that I thought Dr. Davies perhaps didn't know it all, but had died too soon to be overshadowed by this cloud of modern learning.

And while he studied his lesson for the next day, I sat and pored over the old book and the faces of the old boys and girls, many of them dust and ashes now, came back to me, and they were rosy and gladsome as in the old days, and the old school room and the teachers, and the streets of my native village flitted over the page and I heard the voices as I used to hear them, and—"Why, father, I believe you've been asleep." I think I had not.

And the old readers and the spelling books! I have them, and to me they are, each and all, "big medicine." They bring back the days that were, the boys and girls that have been and are not.

I can take up one of those old spelling books and see the big class at noon and at night, and I was in it, and the least of them. We learned to spell, and we prided ourselves in the art. And the old book brings back the "spelling matches," I see them "choosing up," I hear the names of the best spellers called out and see them taking their places, and I hear the voice of the teacher as he gives out the words to the contestants, and I see the disappointed looks of the defeated side and the elation of the victors.

The boys and girls of today will miss all this. They will not understand it. There is a magic in the old memories that they will not be able to invoke, and more is the pity.

I suppose I'm an old fogy, but I cannot think of all that the boys and girls of today will miss without a feeling of pity for them. How many of them will say in the years to come, "If I only could see the books that I used to study, if I could take them in my hand and call up the faces of those who recited those lessons with me, it would be as cool water to a thirsty soul."

Will you not give us at least one letter on this subject? I feel sure that you have many readers that will take delight in it, and some of them may come out with suggestions of their own.

"And the night shall be fill'd with music,
And the cares that infest the day
Shall fold their tents like the Arabs
And as silently steal away."

Some Queer Fish

THE STROLLER.

"Express tonight 50 elephants, 50 zebras, 25 goats, 10 mules, 10 stars, 10 planets.

"DELLERBROCK."

That was the message that caused all the trouble. It happened in a little town in Western Pennsylvania a few months ago. The signer of the message was Frank Dellerbrock, traveling salesman.

When Mr. Dellerbrock pushed the message through the window of the little telegraph office, the clerk shied off to one side, and remarked that "You had better come around in the morning to send your message."

"Morning the deuce," replied Dellerbrock. "I have got to have them early tomorrow evening, and they can't be gotten here if the message does not get out at once."

"The line is busy now," said the clerk cautiously, "but if you come around in the morning we will get it out for you."

By that time Mr. Dellerbrock was a little hot under the collar. "Why, your derned old town doesn't have one telegram a month, and how can that keep the line busy!" he exclaimed in an angry tone. "You get that message out within an hour or I'll report you to the superintendent. I happen to know him and I know he won't stand for such foolishness."

"Oh, of course, you know the superintendent," replied the clerk with a smile, "they all do. But I am sorry I cannot send the message for you. I'll do the best I can for you in the morning, but not now."

Just then the manager dropped into the office—came just before the irate drummer had boiled over. The clerk disappeared from the window and held a whispered consultation with the manager, at the same time casting furtive glances at the man with the message. The manager shrugged his shoulders and said to the clerk:

"Oh, well, if he has the money send it. The company can use the money."

Then he stepped up to the window and began a parley with the man on the other side of the counter.

"This message will cost you $1 35," he said, by way of introduction.

"I don't care two hurrahs what the message costs! I want it sent, and that right away," exclaimed the drummer. "You fellows act like a pack of idiots instead of trying to get all the coin you can corral for the poverty-stricken corporation for which you are working. Get the message out and take the money out of this fifty."

That was a clever piece of revenge, that fifty. The last time a $50 bill happened to arrive in the town it was placed on exhibition in a drug store window, and the man who had the nerve to ask for that much change was considered a marvel. It took the manager just three-quarters of an hour to find the change, and Dellerbrock enjoyed every moment of it. At last the change was produced.

"My clerk was a little foolish," he said, as he was counting out the bundle of aces, deuces and fivespots. "He thought that message of yours a little queer. In fact, even I did not know a circus was coming to town. When are you to show here?" he asked, a vision of passes flitting before his mind's eye.

Right here was where Mr. Dellerbrock saw a great white light.

"Circus be blowed," he said with a guffaw that could be heard a block away, and when he finally was able to control his laughter he continued: "Those are oysters."

The manager rushed for the telegram. "If you call those oysters I don't want a cent. Those are elephants, and zebras, and goats, and things."

"Just the same they are oysters when they arrive," replied the mollified drummer. "That's my code. And you thought I was crazy! And then decided I was a disciple of Tody Hamilton!" And he went off in another fit of laughter.

"You see it's this way," he continued when he could get his breath. "For bulk goods I use stars and planets representing the different brand, and for canned goods I use animals. That saves telegraph tolls and nobody knows my business. The house prefers a little secrecy in its business, and it doesn't hurt to give it all it wants."

"Well, it is certainly up to me to apologize," said the manager, rather sheepishly.

"Not on your life," replied Dellerbrock. "If there is a thirst palace within a mile of this joint you'll buy. I've laughed so hard I'm dry as a chip."

And the manager bought.

The Inside Inn.

The visitor to the world's fair walked timidly up to the clerk at the hotel desk and asked:

"Excuse me, sir; is this the Inside Inn? And if so, is the proprietor of the Inside Inn in?"

"Yes," replied the clerk, with a far away look in his eyes, "this is the Inside Inn, and you will find the proprietor of the Inside Inn outside by the inn's side. He has been keeping the Inside Inn for several weeks. He tells me that once when he took an ocean trip he couldn't keep his inside in, but that was inside information, and he didn't intend it to get outside."

"All right," said the guest, "if this is the Inside Inn, we want to see its inside as well as its outside, before we look inside any of the outside inns. If we like the Inside Inn's inside and outside better than we like the outside inns' outside and inside we may bring our things from outside inside and stop inside the Inside Inn. Because we won't have to go from the inside outside or come back from the outside inside when we're seeing the fair, but can remain inside or outside the Inside Inn, it being the only inn inside the grounds. The other ones are on the outside and furnish no more comforts for the guests' inside or outside than does the Inside Inn with exhibits close outside at the inn's side—that is, the Inside Inn's side. In—"

But the clerk had fainted and fallen inside the Inside Inn's desk and bellboys were hurrying with water for his outside and brandy for his inside, though in their excitement they got that which was meant for his inside outside and that which was for his outside inside.—Baltimore American.

BRENNEN SPOILED HOPES OF BOARD

Declares Magee Property Cannot Be Purchased for Site Until Next Year.

J. P. M'TIGHE RAISES SQUALL

William J. Brennen, solicitor for the central board of education, last night spoiled all hope of the board acquiring the Judge Christopher Magee property for the high school this year, giving an opinion that the contract had been invalidated and the city could not be forced to honor a warrant to make the first payment on the site.

Brennen's opinion was in answer to the three questions submitted to him by President D. L. Gillespie, as follows: Could the board draw a warrant on the city treasurer for $100,000 to make the first payment on the site? The date of the payment having passed, could Judge Magee enforce the contract? If the contract was void and the majority of the board desired to acquire the site, what was the course to pursue?

Brennen said it would be ill-advised to draw a warrant upon the city treasurer, since the supreme court had decided the matter should come up or the demand for the money should be made at the time of the next annual requisition. He said the contract had been invalidated by the decision of the supreme court, and the board could not be compelled to take the property, because the contract stipulated that the deal was dependent upon an appropriation for the purchase being made by councils, this proviso being recognized by the supreme court.

He said the way for the board to proceed to acquire the property would be to obtain another opposition and to make a requisition to councils at the proper time, and not in ambiguous terms. He also advised that a small payment of money should be made on the acceptance of the proposition. This opinion disposes of the high school controversy until next year, when city councils make up the appropriations for 1905.

John P. McTighe, former superintendent of police, raised a squall by attacking the high school committee. He declared the committee was "air-tight" and that teachers were removed without regard to their worth, but to make places for favorites. McTighe made his speech after George W. Gosser had objected to the report of the high school committee, the report containing a list of the teachers elected for the ensuing year. Gosser said one instructor of high repute told him he had been given a tip not to apply for a position, as everything had been "fixed."

"Now that the lid's off," loudly exclaimed McTighe, "let us talk this matter over face to face. Let us know why these changes are made. It appears the professors are supreme, and if they take a dislike to a teacher they say he is incompetent and make his place vacant for some friend. The high school committee has been air-tight for seven years."

W. S. McCutcheon charged that the resignations mentioned in the report of the high school committee had been forced. President Gillespie said the resignations had been requested from the teachers to save them the humiliation of being dismissed. W. H. Ziefel said he was authorized to withdraw the resignation of Miss Loretta Barry, but he later withdrew Miss Barry's name as a candidate for re-election and the report of the committee was adopted, McTighe and McCutcheon being the only members to vote in the negative.

R. C. Chamberlain was awarded a contract to sterilize the three high school buildings for $2,000.

The board accepted the portrait of the late Prof. Jillson by Artist John W. Alexander, and a number of tributes were offered to the skill of the artist.

It was decided to advance the salaries of the musical directors $100 a year.

The vacation committee's report was amended to include Lincoln's birthday as a holiday.

John T. Fox presented a resolution instructing the professors who conduct the examination of the candidates to high school, to eliminate from the list given out for publication, the names of all unsuccessful pupils and the grades and schools. The object is to encourage those who fail. The resolution was referred to a special committee of seven.

W. C. WILSON DEAD; TWO MEN SOUGHT ON WARRANTS

Baseball Game on Memorial Day at Axleton Results in Quarrel With Fatal Outcome—Coroner Seeks George Fagen and Brother.

Warrants for the arrest of George Fagen and his younger brother were issued by Deputy Coroner Church yesterday after a partial investigation into the death of William C. Wilson of Sunnyside, Forward township. Wilson died yesterday morning of blood poisoning, due to a gunshot wound in the leg. It is alleged that this wound was received from a revolver in the hands of George Fagen as the result of a quarrel following a baseball game on Memorial day at Axleton, the new town across the river from Monongahela City.

Wilson, who was a farmer, died at his home. It is alleged that three of the Fagen brothers, "Ben," "Dad" and "Bub," are fugitives from justice as the result. On Memorial day there was a ball game at Millesville, Allegheny county, between a Pittsburgh team and a Millesville team. Ben Fagen and Monte Davis came to blows over some disputed point and Wilson interfered, stopping the fight for the time.

After their return to Millesville the quarrel was renewed. The Fagens and Davis are said to have been drinking some mixture, called by a proprietary name, in the meantime. With George Fagen were George Kelly, Wilson and two other Fagens, "Dad" and "Bub." Wilson and Kelly tried to make peace between the two men. The interference is supposed to have started trouble and bullets were soon flying. Wilson fell with a bullet in his leg. Kelly reeled and dropped, crying, "I'm hit, too, Bill."

A crowd gathered and the hurt men were carried to their homes. The Fagens are said to have run to the river bank, obtained a skiff and rowed out of sight. They have not been seen by acquaintances since that time.

Wilson was 41 years old and a widower. He leaves seven children. His funeral will be held tomorrow. Kelly will probably recover.

Jeremiah Taylor of New Kensington was found drowned yesterday morning in the Allegheny river at the mouth of Puckety creek. Deputy Coroner Campbell held an inquest into his death in the afternoon and a verdict of death by drowning was found. It is not known how he got into the river. He was a laborer.

John Jackson, aged 42, died at the Mercy hospital yesterday from the effects of drinking wood alcohol. He was employed in the livery stable of J. W. McCarmey, 4002 Forbes street. He was found in an unconscious condition in the hay loft with a jug of wood alcohol by his side at noon and was sent to the hospital.

William Knee, aged 68, formerly a hotel keeper at McKeesport, committed suicide at his home, 616 Fourth avenue, that city, yesterday by shooting himself in the head. He had been brooding over imaginary business troubles, and for the last few months has been temporarily deranged. He went to his room about 8 o'clock in the morning and shot himself.

Michael Gritt, aged 26, was crushed to death yesterday while working in the National Tube works, second avenue. He was caught under a pile of falling iron.

TWO BANKS IN OHIO FAIL TO OPEN DOOR

Jury Is Charged in Embezzlement Case, Result of Another Ohio Failure.

[By Associated Press to The Gazette.]

CAMBRIDGE, O., June 14.—The Commercial National bank of this place failed to open its doors today, causing considerable excitement. No statement of the bank's condition was obtainable. The bank had $25,000 city and $12,000 school funds on deposit. A branch of the Commercial, the Peoples Savings bank at Blesville, also closed its doors later in the day. Cashier Paterson of the Commercial bank is said to be in Cincinnati.

WARREN, O., June 14.—Judge Hoie charged the jury in the Ford embezzlement case today. The case has been on for several days past and has attracted widespread attention. It grew out of the failure of the Ford bank at Burton about two years ago, with liabilities aggregating more than $1,000,000 and only nominal assets. Proceedings were instituted against R. N. Ford followed, he being charged with embezzling the funds of the bank. Upon the request of counsel for the defense, a change of venue was secured to Trumbull county.

WOMAN'S DOUBLE CRIME.

Mrs. L. D. Allen Kills Her Husband and Commits Suicide in Cleveland.

CLEVELAND, O., June 14.—L. D. Allen and wife were found dead in their room in an apartment house at 423 Pearl street today, the woman having shot her husband to death and then fired a bullet into her own brain. Allen was 23 and his wife 20 years of age. The young woman evidently fired four bullets at her husband, two of which took effect, after which she wrote a farewell note to relatives and then killed herself. The letter left by Mrs. Allen indicated that the tragedy resulted from domestic trouble. It read:

"I have tried to have Mr. Allen come to some agreement, and he will not. I can not stand it any more. Forgive me all. I am driven to what I have done. Any young wife placed in my position would have done the same. MAME."

The young woman's mother is said to live in Meadville, Pa., while Allen came from Monterey, Ind.

MEADVILLE, PA., June 14.—(Special.)—Mrs. L. D. Allen, who shot herself after killing her husband, in Cleveland, was Miss Marion Baldwin, of this place. Her mother, Mrs. Elizabeth Baldwin, and her sister, Miss Louise Baldwin, live at 297 North street. Allen was a machinist, and came here from Indiana. Mrs. Allen was for years employed in one of the silk works here and later did copying work at the court house. The couple were married about a year ago. Miss Louise Baldwin went to Cleveland this morning, and it is probable that the body of her sister will be brought here for interment. Another sister lives in New York.

McKeesport's Garbage Problem.

The McKeesport common council held an adjourned meeting last evening and decided to recommend the Clinton garbage furnace to the conference committee which was appointed Monday night and which failed to agree upon the type of furnace to be selected. An ordinance for a bond issue of $50,000 to pay for the underground wire system of the police and fire departments and for two water mains passed two readings.

Dick to Manage Campaign.

COLUMBUS, O., June 14.—The Republican state central committee met here this afternoon and selected an executive committee of 96 members, of which Senator Charles Dick of Akron is chairman and John R. Malloy of Columbus is secretary. This will be the ninth state campaign managed by Mr. Dick.

MAN WITH THROAT CUT WAS JOSEPH WILKINS

Left Carnegie Five Years Ago and Dead Body Was Found in Missouri.

"It's a cinch that the murderers will be dealt with properly, and nothing short of the hemp route will be their end." Thus Sheriff J. A. Franklin of Caruthersville, Pemiscot county, Mo., closes a letter which demonstrates that the man found dead in the river at Hayti, Mo., with his throat cut, was Joseph Wilkins of Carnegie.

Wilkins left Carnegie five years ago. The last time he was heard from was two years ago, in Sparata, Ill., and the message received said he was dying. No further word concerning him came until the news of his murder was received. Wilkins' wife, Mrs. Anna Wilkins, lives in Oakland with her son, 15 years old. A young daughter lives with her grandmother in Osage street, Carnegie. Wilkins' brother, William Knee, in-law, says there is no doubt that the body found at Hayti is that of Wilkins. Mrs. Wilkins supposed he died in Sparta, and she is in the city directory as "widow of Joseph Wilkins."

REFORMED CHURCH CLASSIS.

Passed on New Constitution—The Rev. Dr. Prugh to Go to Europe.

At an adjourned meeting of the Allegheny classics of the Reformed church yesterday afternoon in Grace church, Dithridge street, the resignation of the Rev. E. E. Ginder as pastor of the Chicora church was accepted and his acceptance of a call to Evans City was approved. The committee on new constitution reported favorably on the constitution prepared by the general synod, with a few minor exceptions.

The Rev. Dr. John H. Prugh, pastor of the church, will leave for Europe this week where he expects to preach a sermon to the Huguenot synod in Brussels, on July 10. He will also attend the council of the Reformed churches of the world in Liverpool, which will be in session June 28 to July 8. Dr. Prugh expects to return early in August.

Pittsburgh Man is Released.

JOHNSTOWN, PA., June 14.—(Special.)—Before Justice of the Peace Marshall of Windber tonight, William and Richard Jackson of this city were held for court to answer the charge of attempting to hold up Paymasters Howard and Ramsey of the Johnstown Water Company last Saturday, south of Johnstown. Jackson, a brother of the men held, and William Born of Pittsburgh, who had been arrested on suspicion, were discharged. Witnesses testified to seeing both William and Richard Jackson near the scene of the holdup some time before it occurred. They will be taken to jail at Somerset tomorrow morning.

WIFE'S REFUSAL TO COST LIFE

Husband Wanted Her to Return to Him—Shot Her When She Declined.

WOMAN DYING; MAN ESCAPES

Desperate at the refusal of his wife, Annie, to rejoin him, Robert L. Snowden, aged 48 and colored, lay in wait for her in a dark and wooded pathway near Lincoln place, Mifflin township, at 9:30 o'clock last night, and shot her four times, in the presence of two little daughters. The woman is fatally hurt. The man escaped and had not been captured at a late hour last night.

Snowden and his wife, together with their six little children, came to Pittsburgh from Cumberland, Md., about two years ago. They had been separated in Maryland because of alleged abuse on the part of Snowden. After living a year in Wylie avenue they again separated, and Mrs. Snowden took the children to Lincoln place, near Homestead, and shared a house with a family named Johns. Snowden visited the house often and often entreated his wife to return to him, but she would not agree.

Last evening Mrs. Snowden with her two daughters, aged 6 and 8 respectively, left the house to take a traction car to Pittsburgh to visit another little daughter, who is lying critically ill in a hospital in this city. Walking along a path to the car line, she was startled by seeing her husband spring out from a cluster of bushes. Pointing a revolver at her head, he demanded that she return and live with him under penalty of being shot, after which he stated he would commit suicide. The woman refused and he fired four shots. One entered her breast, two went into her right arm and one entered the right side of her neck. The shots and screams attracted Lillie Johns, who lived in the same house as Mrs. Snowden. She arrived in time to see Snowden flying through the woods in the direction of Calhoun park. The woman was taken to her home. She is a very light colored negress and attractive, and had reddish-brown hair. Snowden is described as being a powerful man, six feet in stature and very black.

Every minister in the Pittsburgh synod of the Reformed church was placed in nomination for the position of professor of practical theology made vacant in the Lancaster seminary by the death of Dr. William Rupp, at the special meeting of the synod held last night in Grace church. One ballot was taken without result and the meeting adjourned to 9:30 o'clock this morning.

The session opened with President H. D. Darbader in the chair, and after resolutions on the death of Dr. Rupp were passed the general nomination was made. The result of the ballot was as follows: H. The synod of the Potomac and the Eastern synod are also in session, the former to select a professor of New Testament exegesis and the latter a professor of dogmatic theology. All sessions must remain unadjourned until the selections are complete, and in each instance all synods must countenance each other's selections.

EAGLES PRESENTED WITH PRIZE BANNER

Senator Thomas F. Grady of New York Awards Token at Old City Hall.

In an eloquent address Senator Thomas F. Grady of New York, last night at Old City hall, presented the banner won by the local aerie, No. 76, of the Fraternal Order of Eagles, at the annual convention at New York last year which was awarded for the best appearing aerie in the convention parade. The banner was received by Attorney P. J. Brennan, for the local order, in a masterly and impressive response.

There were about 400 members of the order present at the presentation. The hall was beautifully decorated for the occasion. Senator Grady presented the banner in behalf of Congressman T. D. Sullivan of New York, who was unable to appear. The banner was awarded by Aerie No. 46 of New York. It is a massive silk affair. Senator Grady spoke of the impression made by the members of the local order at the convention and said the judges were unanimous in their decision that the Pittsbugh aerie was the best appearing body of men at the annual convention. This morning 230 members of the Pittsburgh body will attend the meeting of the Tri-State convention at Wheeling. The aerie will be accompanied by the Second Brigade band.

FRESH AIR FOR BABIES.

First Party of Children Taken to the Summer Home at Oakmont.

The first party of children from the slums taken to the country on a two weeks' vacation by the Pittsburgh Association for the Improvement of the Poor, reached Oakmont yesterday. In the party were a number of little ones who are convalescing from attacks of sickness which has kept them housed up in foul-smelling and unhealthful tenements during the greater part of the past winter. The mothers of several of these tots accompanied them. It being thought best by the outing committee that they should be taken along to care for their children. All the home all was in readiness for their reception and every arrangement made that their two weeks' stay might be as enjoyable as possible.

In addition to the children that are cared for during the heated term at the home, vacations for working girls and day's outings for those who cannot be away from home over night, will be given more attention this year than ever before. The board of managers hope to give more girls vacation privileges and more day's outings this year than ever in the history of the association.

The average cost of maintaining each child is $5 for the two weeks, which the cost of sustaining each mother is $6. There are at the present time a much greater number of applications on file than can possibly be accommodated with the funds now on hand. The association will have no solicitors this summer and all contributions should be sent to Mrs. R. B. Lippincott, secretary, 440 Sixth avenue.

License Court Changes Date.

The judges of common pleas No. 1 who sat in license court have changed the date of hearing applications for the transfer of liquor licenses from July 2 to July 5. A year ago the judges, in order to prevent trade in the licenses, decided to hear applications on the first Saturday of July and January. The order of yesterday will mean that the purchasers of saloons will not be able to open up on July 4.

SOCIETY

EXCEPTIONALLY pretty and dainty were the appointments for the wedding of Miss Clara Barnes Wilson and Aaron Calvert Chesbrough of Toledo, O., which took place last evening at the residence of the bride's mother, Mrs. James Robb Wilson, in St. James street, Shadyside. The Rev. Dr. William L. McEwan, pastor of the Third Presbyterian church, performed the ceremony at 7 o'clock. Miss Edna C. Wilson was her sister's maid of honor, and the bridesmaids were Miss Grace Chesbrough, a daughter of the bride's groom, Miss Vernie Collord, Miss Grace E. Hamilton and Miss Helen Wilson. Pressly Craig of Toledo was the best man. The ushers included Dr. John Harvey and Frederick B. Snider of Toledo and Carlegia Wilson and Dr. J. C. Thompson of this city.

The wedding colors were pink and white and were carried out throughout the decorations of the house and in the gowns of the bride and her maids. The bride wore an exquisitely beautiful robe of white Brussels net over white satin, soft sweeping folds of the net ending in the full court train. The gown was trimmed with delicate duchess lace, and the full tulle veil worn at the back of the head fell in a shimmering cloud beneath a low coronet of orange blossoms. The bride carried a bouquet of white roses and orchids in a shower effect. Her jewels consisted of a necklace of diamonds with clasp of diamonds and a diamond pendant with a large central yellow diamond. These were the gift of Mr. Chesbrough. The bride also wore a brooch of diamonds designed after a portion of the favorite crown worn by Queen Helena of Italy. The brooch was the gift o fthe bride's two sisters.

The maid of honor wore a robe of Irish poinate and valenciennes lace over an undergown of pink silk, throwing into strong relief the exquisite beauty of the pattern. The bridesmaids' gowns were of pink chiffon, a combination of shirrings and puffs, with very full skirts and high pink ribbon girdles with pretty bow sashes. The neck is inches in length and ending in smartly tied bows. In their hair they wore wreaths of pink roses and rosebuds. Pink sweet peas were carried by the maid of honor, the bridesmaids carrying white sweet peas.

Several features distinguished this wedding from many other June weddings. A bride's book bound in white and gold, in which will be kept all the souvenirs and mementoes of the wedding and its preceding gaieties, was passed among the guests last evening that they might place their names in it. The bridal party had placed their autographs in the book at the rehearsal dinner on Monday evening. The marriage was solemnized in the library. Tall palms and the white and green Japanese maples formed an effective background for the bridal party, while wicker bowls filled with large white peonies stood on pedestals at each side. Lighted candles burned within tall brass candlesticks beside the white satin bow. The mantel was banked with ferns and white peonies filled the side brackets. Floral shades adorned the chandelier, while asparagus hung in the doors and windows.

A number of small tables, each having a centerpiece of white roses occupied the dining room and porch, the musicians being screened at one end. White hyacinths and pink sweet peas were combined effectively on the dining room chandelier, and the buffet and mantel were massed with ferns. All the relatives and the bridal party, the members seated at one large table, were served in the drawing room. Over the bride's table fell a shower of pink roses, white lilacs and tulle, white iris forming the centerpiece. White roses were used on the small tables, and ferns banked the mantel. The two predominating colors, pink and green, harmonizing and contrasting with the old rose finishings of the room. The lights in the crimson hall glowed through dainty flower shades.

After a short trip to St. Louis Mr. Chesbrough and his bride will observe one at-home day, June 24, in Toledo, after which their house there will be closed and they will go abroad, accompanied by Mr. Chesbrough's children, to spend the remainder of the summer.

Among the wedding gifts which included silver, china and cut glass, was a silk flag from a Toledo friend of the bridegroom, with a cordial little note mentioning flag day and the wedding day as one and adding that, as they were going abroad, the banner of their own country might be carried with them to foreign cities. Mrs. Wilson's gift to her daughter was a handsome silver tea service.

Shaffer-Whitehead.

A pretty church wedding yesterday evening at 8:30 o'clock was that of Miss Mary Ida Shaffer, daughter of the Rev. Dr. and Mrs. George Shaffer, and Dr. Charles Edward Whitehead of Bellevue, in the Bellevue Methodist Protestant church. The church was decorated in green and white, the organ loft being banked with ferns and palms and the altar rail with ferns and orange blossoms. The wedding march was played by Fred East of Bellevue. The bride entered on the arm of her father, who performed the ceremony, assisted by the Rev. C. F. Swift of Beaver Falls. She wore white chiffon trimmed with pointe lace. Her veil was fastened with a small aigrette and she wore a handsome bar pin of diamonds and pearls, the gift of the groom. The maid of honor, Miss Olive Shaffer, a sister of the bride, was gowned in white mull and carried maiden hair ferns tied with white chiffon. The bridesmaids, Miss Grace Hummings, Miss Elsie Wright and Miss Anna Wright of Bellevue, and Miss Grace Dickinson of Wilkinsburg, wore white mulle with sashes of pale green silk, and each carried white sweet peas tied with white chiffon. The best man was Dr. E. A. Waugaman of Bellevue. The ushers were Harry Rhine, John Ralston and Andrew Muirhead of Bellevue, and Dr. R. Orr of West Newton. After a reception at the parsonage Dr. and Mrs. Whitehead left for an eastern wedding trip, which will include a short ocean voyage.

After the informal reception an address of welcome was given by Mrs. W. E. Evans, to which Mrs. Hunter, the former president, and Mrs. Anderson, the new president, responded. Mrs. Gordon spoke a few words, and the short program was concluded with an address by Miss MacKnight on the work of organized womanhood. Throughout the afternoon a delightful musical program was presented, and after the addresses refreshments were served. HEAD SOLID SORE

Awful Suffering of Baby and Sleepless Nights of Mother.

CURED BY CUTICURA

Skin Fair as a Lily With No Scar to Recall Awful Sore, Writes Mother.

"I herewith write out in full the beginning and end of that terrible disease, eczema, which caused my babe untold suffering and myself many sleepless nights.

"My babe was born seemingly a fair, healthy child, but when she was three weeks old a swelling appeared on the back of her head, and in course of time broke. It did not heal, but grew worse, and the sore spread from the size of a dime to that of a dollar. I used all kinds of remedies that I could think of, but nothing seemed to help; in fact, it grew worse. Her hair fell out where the sore was, and I feared it would never grow again. It continued until my aged father came on a visit, and when he saw the baby he told me to get Cuticura Soap and Ointment right away.

"To please him I did so, and to my surprise by their use the sore began to heal over, the hair grew over it, and today she has a nice head of hair, her skin is as fair as a lily, and she has not scar left to recall that awful sore, and it is over eight months and no sign of its returning."

Mrs. Wm. Ryer, Elk River, Minn.

"Cure permanent." So writes Mrs. Ryer, Feb. 25, 1903, six years later:

"Your letter of the 19th inst. received, asking in regard to the cure of my baby some six years ago. Well, the disease has never returned to her head, which at that time was a solid sore on top and down the back. Once or twice since then a patch has come on her hand near the wrist, but it finally disappeared after proper treatment with Cuticura."

AMONG THE CLUBS

Joyous Celebration of Flag Day.

The general hall of the Pittsburgh Golf club was thronged yesterday afternoon with smartly gowned women, gathered to celebrate flag day. They were members of Pittsburgh chapter, Daughters of the American Revolution, and in order to commemorate the occasion Miss Sara H. Killikelly was invited to deliver an address on "The Louisiana Purchase." The women, as they arrived, were received by the officers of the chapter, who formed a long receiving party and included the regent, Mrs. Samuel A. Ammon, and Miss Julia Morgan Harding, Miss Pauletta Guffey, Mrs. William S. Foster, Mrs. Edwin F. Earl, Mrs. Edward Blaine Scull, Miss Matilda W. Denny, Mrs. Persifor F. Smith and Miss Kate C. MacKnight, who arrived late, having delivered an address before the Woman's club of Wilkinsburg. Mrs. Park Painter and Mrs. Dexter J. Thayer were out of town and Mrs. Joseph W. Marsh was detained at home because of illness in her family.

The assembly room was handsomely decorated. American flags being employed to the exclusion of all other decoration. One single immense flag hung over the balcony and scores of smaller flags were arranged in clusters beneath the balcony. Over it hung large, white silk banners crossed. The women were seated in the hall and in the large dining room opening from it. At the close of the address they passed out through the second open window to the piazzas, and there were served with refreshments.

Miss Killikelly was given a most enthusiastic reception on her entrance and many were the congratulations she received on having nearly recovered from her serious accident, a fractured ankle, an injury of the past winter. She will remain in Pittsburgh until July, when she expects to return to New York to spend the summer.

Miss Killikelly, in her own characteristic manner, spoke of the great exposition which is being held to commemorate the purchase of the Louisiana territory and which presents in a panorama the work of the world. Education, she said, is the keynote of the exposition. Miss Killikelly advocated a statue to Napoleon, who made possible the spread of the United States from ocean to ocean, and referred to his prophecy: "Perhaps it may be objected that the Americans will be found too powerful for Europe in two or three centuries." She also spoke of the resources of the territory purchased from France, giving statistics to show that annually the agricultural products alone aggregate 100 times the purchase money, while the taxable wealth today is more than 400 times the $15,000,000 paid for the territory.

Benefit for Soho Baths.

The military euchre which the members of the Colloquium club gave yesterday afternoon for the benefit of the proposed Soho public bath and wash house was more successful even than the women anticipated. It was conducted in the new Bellefield club house at Craft and Center avenues, and the tables, 20 in number, were placed in the assembly room. For the occasion the hall was handsomely decorated with flags, which were gracefully looped upon the walls. The tables were arranged in three groups, and the woman having the leading score in each section won a prize, a handsome gold fan. Mrs. John Fremont Shafer directed the game. Preceding the opening of the game an informal reception was held, the guests being received by Mrs. Samuel R. Seymour, the president of Colloquium; Mrs. John W. Pontefract, Mrs. John Fremont Shafer, Mrs. Quilliford B. Sweeney and Mrs. Harry Lawrence. When all the returns are in and the expenses of the entertainment met the club expects to realize $150, which will be turned over to the fund for the Soho public bath and wash house.

OSTRICH LOGIC.

"When I can't *see* danger there is no danger." That's the logic of the ostrich which hides its head and exposes its body to the hunter. There are not a few people who seem to have gone to the ostrich to learn logic. The most dangerous enemies of humanity are the enemies which can't be seen, the disease breeding microbes which infect the blood. It is harder to get the microbe out of the blood than to keep it out, but Dr. Pierce's Golden Medical Discovery does both, by purifying the blood and then keeping it pure.

If there are eruptions on the skin, boils, pimples, sores or other signs of impure blood, use Doctor Pierce's Golden Medical Discovery, which will purify the blood and cure the eruptions which come from it.

"My blood was all out of order, and I had to go to the Doctor," writes James R. Moss, New London, Stanly Co., N.C. "He gave me medicine which helped me for a short time. In the winter of 1895 I got worse than I had ever been. My tonsils were enlarged and my neck swollen all out of shape; my throat was sore and I could not cure it. My husband went for the doctor, but he gave me no encouragement. He helped me a little, but it did not last long. He attended me for twelve months, when I heard of a lady whose condition was like mine, who was taking your medicine and was getting well. So I secured some of the medicine and began taking it. In one week I was able to do my cooking. When I began taking the medicine I could sit up only a few minutes at a time, and I could rest or sleep only a little while at a time. My throat was so sore at times I could not even swallow sweet milk, and my tonsils were full of little eating sores. My left side was swollen out of shape and I could hardly get my breath. The doctor said I would not get well, but three bottles of Dr. Pierce's Golden Medical Discovery, three bottles of his 'Pellets,' three bottles of Dr. Sage's Catarrh Remedy and the use of salt water did the work and cured me."

Dr. Pierce's Pleasant Pellets cure constipation and its consequences.

BIRTHDAY OF OLD GLORY.

The 127th Anniversary of the Flag Was Observed Yesterday.

The 127th anniversary of the birth of the American flag was observed in many schools yesterday by patriotic exercises. Here and there a flag floated in the residential sections of the city, but the colors were not shown as generally as might have been expected.

A reception, in honor of the day, was held yesterday afternoon in the Golf club by the Pittsburgh chapter of the Daughters of the American Revolution. Mrs. James R. Mellon, vice president general of the national organization, assisted. An address on "The Historical Side of the Louisiana Purchase" was delivered by Miss Sara Killikelly.

W. U. P. SENIORS' QUIET CLASS DAY

Absence of the Usual Racket at Such Affairs Was a Feature.

FACULTY WAS WELL PLEASED

Shorn of most of the picturesque absurdities that usually characterize such an event, the class day exercises of the graduates of Western University yesterday were perhaps the most decorous in the history of the school. True, there was an element of disorder in the proceedings caused by a natural desire on the part of the juniors to make farcical the program events of the seniors, but aside from impromptu remarks, more or less witty, cat-calls, and the throwing of long streamers of colored paper, with infrequent interruptions during which the undergraduates sang songs, the affair was not one such as usually tries the patience of the faculty.

The riotous explosions of mirth and torpedoes that marked the class day of last year's graduates, were missing, and the men of '04 were much more kind in their references to the eccentricities of the members of the faculty than were their predecessors. A few remarks aimed at the known weaknesses of the instructors brought forth cheers from the gallery, but on the whole the seniors maintained a dignity that was really pleasing to Dean Carhart and his assistants. The widest digression from the spirit of propriety perpetrated by the seniors was a stage performance representing a poker game upon which some member of the faculty is supposed to break in unexpectedly. This brought forth from the juniors cries for a new deck, another stack of blues, and other equally appropriate suggestions.

When the seniors tried to sing "Anona" their melody was drowned by the strains of "We Want More Lager Beer," and "There's a Hole in the Bottom of the Sea," sung lustily by the juniors.

"If you can't sing, say something," was another interruption after the police succeeded in discouraging the efforts of the gallery to stop the music.

Prior to the opening of the exercises the juniors distributed yellow programs that had, under the head of "First Grand Fiasco," the program of the seniors as it appeared to the undergraduates. All visitors were invited to take this "last chance to see the animals." The collective characters of the seniors were set forth under the caption of "The Show People."

With lamp-black and the aid of a sign-painter the seniors had fitted up a curtain for the stage that caused some laughter. Dean Carhart was pictured as gazing intently through a telescope, "looking for that million from Carnegie." Under the title of "Mother," Prof. Frost was shown as he appeared at the age of eight years. "We are descended from Mary, Queen of Scots," and other equally absurd lines, covered the canvas and drew from the juniors hoots of derision. The faculty fulfilled its threat to procure police protection, but the officers' services were not required.

The address of welcome was made by William H. Lacy; spoon presentation, Byron B. Stroud; class historian, George C. Filson; piano solo, Miss Anna Florence Carhart; piano solo, Alfred J. Buka; address by Paul D. Wright.

The commencement exercises will be held tomorrow evening at Allegheny Carnegie music hall.

BRITISH AMBASSADOR VISITS WEST POINT

Philadelphia Cadet Is Presented With Trophy for Athletic Honors.

[By Associated Press to The Gazette.]

WEST POINT, N. Y., June 14.—Secretary of War Taft, Sir Mortimer Durand, the British ambassador; Lieut. Gen. Chaffee, and Major General Corbin arrived here today. They were met at the railroad station by Brig. Gen. A. L. Mills, commandant of the academy, his military staff and an escort of cavalry. There was a salute and a presentation of arms by the corps of cadets. This was followed by a grand review in honor of the ambassador's visit.

Tomorrow morning there will be a grand review of the corps of cadets for the Filipino commission, which is to arrive at 7 o'clock.

While the cadets were seated at dinner today, Col. Fieberger, in behalf of the army officers and athletic association, presented cadet Horatio B. Hackett, Jr., of Philadelphia, a member of the graduating class, with a handsome gold-mounted regulation sabre. This was in recognition of Cadet Hackett's successful work in all around athletics, and his excellent service with the football and baseball teams.

REV. DR. TURNER RESIGNS.

Waynesburg College to Have New President—Commencement Week Exercises.

WAYNESBURG, PA., June 14.—(Special.)—President Dr. A. E. Turner, who has been at the head of Waynesburg college for the past four years, has tendered his resignation and has accepted the presidency of Trinity university, Waxahachie, Tex. This action has been taken on the advice of a specialist, owing to Mrs. Turner's health, her physician having advised a southern climate. The resignation has been accepted, with regret. The position will shortly be tendered to some prominent man in the Cumberland Presbyterian church.

Today society reunions and ivy day exercises were held, the oration being delivered by Charles O. Irrin and the poem by Mark C. Ingham. A may pole and luncheon on the campus closed the exercises. Tonight the cantata, "Rose Maiden," was rendered, under the direction of Prof. C. W. Best. Mr. E. E. Giles, tenor; Miss Winifrede Reahard, contralto, of Pittsburgh; Mrs. A. E. Turner, soprano, and Thomas Hughes, basso, of Waynesburg, had solo parts. The choir consisted of 100 voices.

ORGANIZING TEXTILE WORKERS

Thomas H. Flynn of the A. F. L. Returns from Philadelphia.

Thomas H. Flynn, organizer for the American Federation of Labor, arrived in Pittsburgh yesterday, after spending about six months in Philadelphia organizing the textile workers. The American Federation of Labor is determined to thoroughly organize that city, and for several weeks has had several representatives at work.

Mr. Flynn is a boilermaker and was a candidate for president of the international association. The returns, announced a few days ago, show he was defeated. He says the election was irregular and will file a protest.

Hair Escaping?

No wonder. Your hair is starving. Feed it before it all leaves you. Then you can keep what you have and add greatly to it. Ayer's Hair Vigor is a hair-food. It stops falling of the hair, makes the hair grow, and always restores color to gray hair.

"One year ago today I had not one single hair on my head, and today I have as fine a growth of hair as any young man in my town, and just three bottles of Ayer's Hair Vigor did it."

DR. GUNSAULUS MADE ADDRESS

Noted Chicago Orator Discussed Eloquence at the Pittsburgh Academy Exercise.

POINTS TO LABOR PROBLEM

Before a representative audience that could scarcely be accommodated in the spacious Nixon theater last evening, the 48 seniors of Pittsburgh academy conducted their commencement exercises. The event of the evening was an address by Dr. Frank W. Gunsaulus, president of Armour institute, Chicago, on "The Later Eloquence of Puritanism." Many prominent local clergymen and attorneys were attentive listeners to the speaker.

Dr. Gunsaulus pointed to the biblical and historic characters that inspired Puritanical eloquence. He referred to utterances of Isaiah and Abraham, to early English statesmen, to Washington, Bunyan, Milton, Whittier, Charles Sumner, Daniel Webster, Lincoln, Wendell Phillips and others. Speaking of famous papers teeming with Puritanical eloquence, the speaker first referred to the Wedmore treaty of Alfred the Great, which was outshined by the Magna Charta, in turn better illustrated by the Mayflower compact, excelled in brilliancy by the Declaration of Independence, called attention to what he considered the most sublime effort of Puritanical eloquence, the Proclamation Emancipation, "and," continued the speaker, "we have yet to have the greatest of them all to follow, a paper setting forth the mutual rights of capital and labor."

The address was repeatedly punctuated by applause.

The exercises opened with musical selections by Gernert's orchestra, followed by a salutatory by Miss Margaret Hills, which was most gracious, and which included a description of the newer method of commencement exercises, wherein the graduate is "to hear rather than to be heard." An impressive and well delivered valedictory was presented by John S. Carlisle. David George rendered a solo obligato in very creditable style and the Academy Glee club sang several selections. The exercises closed with the presentation of diplomas by President J. Warren Lytle, who made a short address.

The girl graduates, of whom there were 12, were showered with flowers. The officers of the class are as follows: President, W. J. Bragdon; vice president, F. E. Reese; secretary, M. Beatrice McBride; treasurer, H. E. McCurry, and marshal, E. G. Rothwell. The graduates are:

AN AUTO RIDE TO

SCHWITTER WEST-VIEW

FOR FIVE CENTS!

That is what a Brooklyn real estate operator said! Here are his words: "When I first read of your NEW MANIFOLD MOTOR LINE, I got it into my head that you were introducing a new speedway for automobiles and millionaires. But when I went out there and found a T-railed, safety-tracked traction line instead, with ingeniously equipped cars operated on it, making a speed rate of forty-five miles an hour, I was astonished at how you do things. It WAS an automobile speedway. Not for millionaires alone, but for everybody. Imagine my surprise at getting an automobile ride for five cents, as that is virtually what a ride on those cars, going at the rate of 45 miles an hour, amounts to."

Above you have the opinion of an outsider who is an operator in Brooklyn property, and those Brooklyn fellows think they've got everything anybody else has and a little besides. Moreover, this Brooklyn man hadn't been told or didn't go far enough to see the great loop we are building through Bellevue, so that passengers living in Schwitter West-View may soon get on a car going either direction and get to downtown Pittsburgh.

We have some especially choice sites 30x120 feet and larger at $100 to $750, offered on easy terms, the way you won't feel the outlay.

FREE BONDS—MONEY MAKERS

Don't forget to ask about the provisional-premium bonds which have earned so much money for purchasers. WE GIVE THESE FREE.

It's wonderful the money the holders of these bonds over in Keating West-View Nos. 1 and 2 have made out of these bonds. Many made a fourth the price they paid for the lots.

A 10 OR 20 $ BILL WILL DO WONDERS

THE STREET IMPROVEMENTS

You ought to see Wentworth Avenue after the asphalt paving has been put down. You ought to see how the entire plan is improved. How we are piping sand-filtered water to the lots, sewering the streets and have electric-lighted the property.

IT'S A CITY. That is what it is! Not a common lot proposition.

THE CARS TO TAKE ARE MARKED WEST-VIEW, EAST STREET AND MADISON AVE.

THESE CARS START AT LIBERTY AVE. and SEVENTH ST.

REAL ESTATE BARGAIN-FEST

We have inaugurated a bargain fest on Glenmore and Woodland Avenues, to keep the crowds coming to look at this property. Wonderful sites at $50 to $300. Some front on the grand new Double-Terminal Manifold-Motor Traction Line.

People have seen good traction lines before, and know of millions of dollars that have been spent to move hills, etc., but nothing matches up to this real traction triumph.

DON'T WAIT TILL THE BARGAIN LOTS ARE GONE

SELLING BY MAIL

We are selling lots by mail. Letters of inquiry continue to arrive, and after replying to them with facts and testimonials from our customers, nice deals are closed. Outsiders know how Pittsburgh is growing, and when the best part of it is offered to them at popular prices, they are quick to see the opportunity for investment.

MESSAGE OF LOVE SENT MRS. EDDY

Three Thousand Christian Scientists Hold Annual Meeting at Boston.

FARLOW ELECTED PRESIDENT

[Special Telegram to The Gazette.]

BOSTON, MASS., June 14.—Love for Mrs. Mary Baker G. Eddy, leader of the Christian Science, was tenderly expressed in a message which was sent to her today from 3,000 Christian Scientists who gathered at the annual meeting of the First Church of Christ. "We love you in that sweet and abiding sense of the divine injunction that ye love one another," the message read. Another letter was sent to Mrs. Eddy acknowledging her gift of a gavel and rosewood casket to the converts who made a pilgrimage to her home in Concord yesterday. These officers were chosen for the next year: Alfred Farlow, president, in place of E. P. Bates; Stephen A. Chase, treasurer; William B. Johnson, clerk.

"Christian Science," Mr. Farlow said in an address following the announcement of his election to the presidency, "is not a mere medicine for pain and disease, but the perfect way out of all human woes, marking distinctly the course from earth to heaven, which is reached, not by a journey from one locality, but by making the transition from a material condition to a spiritual state."

In a report he submitted, William Johnson, clerk of the church, says: "Ten years ago there had been admitted into the church 2,536 members. The membership is 30,554, of which 3,102 have united during the past year. There are 619 Christian Science churches."

Reports on the work of the Christian Science churches were made by reports from New York, Wilmington, Del., Sharon, Pa.; Eureka, Cal.; Dallas, Tex.; Minneapolis; London, England; Concord, N. H.; Manila, P. I.; Ottawa, Canada, and of the Science society of Harvard college. Mrs. Sarah Irene Rudd delivered the Sharon message. Septumas J. Hanna, who recently returned from a lecturing tour in Great Britain, told of his work. The message sent to Mrs. Eddy in full is:

The members of mother church, assembled in annual business meeting, avail themselves of the privilege of expressing to you their appreciation of your long and consecrated ministry to the children of men and the quickened stupendous worth to the world of your revelation of the health and life giving potency of the religion Jesus Christ brought to the world. Day by day it becomes more apparent that it is your key to the Scriptures that has wider opened to us the storehouse of God's word and love and enabled us successfully to invoke his healing and redemptive powers as it was done 1900 years ago. You have taught us to emphasize by precept and example the scientific value of works over words, and thereby the better to comprehend the oneness of christianity and Christian science.

Devoutly we thank God for your beautiful life and the good you have brought to humanity. Our sense of obligation to you cannot be measured by words. Thousands of your fellow men rejoice in health and happiness today only because you pointed the way from the clutch of disease and the fawn of death. Mere expression of thanks cannot compensate for this marvelous ministry. Love begets love and love's offering can only be love. Dear love, we love you; love you in that sweet and abiding sense of the divine injuction that 'ye love one another even as I loved you" and in the full appreciation of the fact that love for our fellow men is the truest human expression of our love for God; and as you have so sweetly taught us the way, our love and this holy hour pass over to our neighbors, mantled in that charity that "hopeth all good; believeth all good; doeth all good; suffereth long and is kind."

Carr Succeeds Clarkson.

CAMBRIDGE, MASS., June 14.—Proctor Carr, '04, of this city, was elected captain of the Harvard varsity nine today to succeed Walter Clarkson, resigned. Carr has played third base on the nine for the past three years.

CLANGING BELLS START JUBILEE

Atlantic City's Golden Celebration Starts Off With Gorgeous Display.

HEARTY WELCOME TO GUESTS

The Pittsburgh Gazette Bureau.
Young's Ocean Pier.
ATLANTIC CITY, N. J., June 14.

The last flag was unfurled and the last bit of bunting tastefully arranged this afternoon and added to the gorgeous decorations throughout the city, and at midnight the fire bells and everything that could give forth sound were employed to make the joyful announcement that Atlantic City's golden jubilee was on.

The streets were filled early with people all in gay attire, in keeping with the celebration. The boardwalk was one mass of happy humanity. Thousands of ladies carried Chinese lanterns, while rolling chairs, from which hung tiny lights and other decorations, darted through the crowd, their occupants singing popular songs.

In front of city hall, opposite which stands the magnificent court of honor, a great crowd gathered awaiting the electrical display. Suddenly, on the stroke of 12, the entire front of the building was lighted up. Opposite the court of honor and near the roof, Columbia made her appearance, the figure being prettily arranged by an intricate combination of colored electric lights. In one hand the Goddess of Liberty supported a large American flag, the effect produced by perpetual electric currents, making the national emblem appear waving in the night's breeze, while with the other hand Columbia pointed to the golden welcome inscribed on the court of honor. This welcome is but a minute prelude of what the resort will witness during the three days that are to follow.

Half a century of unexcelled growth and prosperity will be observed tomorrow afternoon at the opening ceremonies when the Founders' column, erected in the city park, will be dedicated as a fitting tribute to the memories of men who laid the foundations upon which has been built the splendid city of today. With blare of trumpet, bursts of song and appropriate oratory, loyal city folk and visitors alike, will assemble in festive mood.

Thousands of people arrived today on every train. A delegation of New Yorkers came down today and are making merry and thousands of others from the New Jersey metropolis are expected during the three days' celebration.

A message was received tonight from President Roosevelt, regretting his inability to be present.

An event that is arousing much interest is the big marine parads which will take place Thursday. Every craft in the city will be in line, as well as entries from the New York, Philadelphia, Cape May, Island Heights, Ocean City, Ventnor and Beach Haven Yacht clubs.

FORTUNE WAS GOOD.

Street Car Accident Was Lucky One for Many Frightened Passengers.

Twenty-five people came near meeting death shortly before 6 o'clock last evening, when car No. 86 of the Braddock division of the Pittsburgh Railways Company jumped the tracks while going down the viaduct at the end of the Glenwood bridge.

The car crushed through the heavy guard rail on the left side of the viaduct and was stopped by the Baltimore & Ohio railroad track, which is parallel. The car had almost cleared the viaduct when the accident happened. Had it gone to the right side instead of the left, the car would have jumped into the river. All the passengers were badly shaken up, but no one was seriously injured. James Malloy was the motorman.

VIRGINIA'S VOTE IS FOR PARKER

Daniel Says Uninstructed Delegation Is Simply a Habit in His State.

PENNSYLVANIA ALSO CLAIMED

The Pittsburgh Gazette Bureau.
Herald Building, Herald Square.
NEW YORK, June 14.

Assurances have been given to the managers of the campaign for the nomination of Judge Alton B. Parker that neither Senator Gorman of Maryland, nor Col. James M. Guffey, leader of the Pennsylvania Democracy, is working against Judge Parker. These were followed tonight by an intimation that Thomas F. Ryan, who has been regarded as the head and front of the opposition to Judge Parker, is not fighting him.

Senator John W. Daniel of Virginia, had a long talk today with Mr. Ryan, and the rumor was started that the Virginia delegation to the national convention, which is uninstructed, might vote against Judge Parker. Senator Daniel declared that there was not truth in this report.

"I did call upon Mr. Ryan," Senator Daniel said at the Waldorf-Astoria tonight. "He is a member of the Virginia delegation to the national convention. My call was mainly regarding a business matter, but, of course, we talked of politics in a general way."

"Mr. Ryan has been credited with having prevented Parker instructions in Virginia," was suggested.

"If he had anything to do with it, I do not know it," Senator Daniel said. "It has not been the custom in Virginia to instruct its delegates. When the convention met, Mr. Braxton, Senator Martin and myself all said that if we were to vote then we would vote for the nomination of Judge Parker, but that it had not been customary to place the delegates under instructions, and we saw no necessity for it this year. There was no ulterior motive in it.

"I do not know that Mr. Ryan is fighting Judge Parker. I thought he was for him. All the delegates with whom I have talked are in favor of the nomination of Judge Parker, and I have heard no second choice discussed. I have no doubt that Judge Parker will receive the vote of Virginia on the first ballot, unless something now unforeseen prevents. I think the vice presidential candidate will come from the middle west."

"What is your opinion regarding the party platform?" was asked.

"I think the Democratic party has had too much platform," Senator Daniel replied. "I hope we shall not have an essay, but a clear declaration that all can understand."

FIVE MEN SUSPECTED OF ROBBERY ARRESTED

The police arrested last night five men suspected of having been implicated in the robbery of the Dowerman Rivet & Bolt company, Penn avenue and Thirty-second street, on Monday. The prisoners are Robert Davis, 3171 Ridge street; Thomas Hughes, 3321 Millwood avenue; Charles Kelly, 30 Forty-first street; James Doran, 3315 Liberty avenue, and Albert Duffy, 1004½ Forty-fifth street. A large number of saws, drills, dies, and machinists' tools were taken from the plant.

Woman and Child Found Starving.

BUTLER, PA., June 14.—(Special.)—Mrs. Clement Rocco, with an almost starving baby at her breast, was removed from her home in Rew row, to the county home today. She was found lying in bed with a 3-months-old baby, too weak to help herself. She had had no food for several days. Neighbors, wondering what had become of her, entered the house and found her. The baby was thought to be dead, but revived. Her husband was out of work in March and after the baby was born, it is said, deserted her.

PATTISON WILL GET COMPLIMENTARY VOTE

Pennsylvania Delegation Likely to Give Him Support on First Ballot.

[By Private Wire to The Gazette.]

PHILADELPHIA, June 14.—Pennsylvania's 68 delegates to the St. Louis convention will give a complimentary vote to former Gov. Robert E. Pattison for president on the first ballot. In the opinion of the Democratic leaders here there will be no nomination made on the first ballot.

It is not improbable that Col. James M. Guffey, the Democratic state leader, will withhold any declaration as to preference of presidential candidates until after the Pennsylvania delegates meet in caucus in St. Louis. Unless it should appear at that time that any one candidate is likely to be nominated on the first poll of the delegates, Col. Guffey will ask the Pennsylvania delegates to cast a complimentary vote for Mr. Pattison.

Without professing to even reflect the views of Col. Guffey a number of his Philadelphia lieutenants are privately predicting the nomination of Congressman John Sharp Williams of Mississippi for vice president by the St. Louis convention. They make the further prediction that it is likely to be Mr. Williams "or a man from the west," thus leaving to inference their belief that the nominee for president will come from the east.

WOOSTER, O., June 14.—(Special.)—Hundreds of people at the commencement exercises of Wooster university were terror-stricken late this afternoon during a heavy electrical storm, when George Dunham, an aged teacher, was struck by lightning just as he entered Memorial chapel. Hall did much damage in the vicinity, as of the city, wrecking residences and many metal-roofed buildings. Although in a critical condition tonight, Mr. Dunham may recover.

WEST VIRGINIA SAFELY IN REPUBLICAN COLUMN

Congressmen Tell Roosevelt That Teter Will Be Nominated and Elected.

[By Private Wire to The Gazette.]

WASHINGTON, June 14.—The political situation in West Virginia was the subject of a conference at the White House today when Representatives Dayton and Hughes had a talk with the president and assured him that there was no grounds for the hopefulness with which the Democrats viewed the situation in that state. They told him that the Republicans would easily carry the state this fall.

They informed the president that Charles E. Teter would be nominated for governor and predicted his election. In discussing the situation after the conference Mr. Dayton said:

"Teter will be nominated for governor and he will be elected by a majority of from 25,000 to 30,000. I do not consider this a high figure and I am satisfied it will be easily reached. On a most conservative estimate Mr. Teter is within twenty votes of having a sufficient number to guarantee his nomination and it is probable that he already has a majority of the delegates that have been elected. There are about 100 delegates yet to be elected and of these Mr. Teter will secure from 60 to 75 and will easily control the state convention. The Republicans of the state will experience no difficulty in getting together and electing their nominee for governor and other offices.

OVERPRODUCTION is the bugaboo of the manufacturer. If the outlook for a prosperous season is good—he accordingly manufactures large stocks, anticipating a great demand. Should the season turn out otherwise, he has but one alternative—namely, to take a quick and decisive loss. Everybody knows this has been a very backward spring season—with the consequent result that thousands of manufacturers and wholesalers accepted severe losses rather than hold their goods.

We secured the entire surplus stocks of the above named manufacturers, reckoned among the foremost clothing manufacturers in the country. The purchase involved many thousands of dollars—but the savings we effected justified the spot-cash transaction. The following prices show the extent to which you profit thereby. The entire purchase has been divided into three price-groups as follows:

6.60 for suits that sell regularly for $10 and $12

At this price will be found single and double-breasted sack suits of all sorts of stylish materials, including blue and black serges and cheviots. The coats are lined or half lined, and are cut with broad shoulders and with the nobby small collar and lapels. Buttonholes are hand worked; better fitting garments it would be hard to find.

Pants special

2,000 pairs of men's trousers of various materials—cut and made in good manner—worth $1.50 to $1.75, to go at 1.00

9.90 for suits that sell regularly for $15 and $18

The garments at this price are eminently good; they are made from distinctly high-class materials, in nobby and refined patterns—also from blue and black serges and cheviots. They are tailored in high-class manner—and are trimmed as good as the $20 and $25 garments of the average custom tailor. Choice of either single or double breasted sack styles.

Pants special

1,800 pairs of men's trousers of very good quality worsteds, cassimeres and cheviots—worth $2.50 and $3, to go at 1.98

The finest ready-to-put-on garments manufactured are embraced in the group at this price. Imported worsteds, bannockburns, cassimeres and cheviots; the highest class of materials and the swellest patterns. Equal garments cannot be produced by good custom tailors for less than $25 to $35. More good news of silks

WE'VE given our public a more tempting series of silk specials this season than ever before. Effect follows cause. The liquidation of one of New York's largest importers and jobbers—and the sacrifices of large stocks of other concerns are responsible for these most unusual bargains. The good work keeps up—read on:

Double width tussor pongee silk, 27½c

There's no more popular wash silk for the summer unlined shirtwaist suits and dresses than the tussor pongee. This offer embraces the most wanted coarse weave—good heavy weight. Only 8 to 12 yards will be sold to a customer at 27½c yd.

Sale of loom ends of shirtwaist suit silks

Today and tomorrow will more than likely see the end of those loom ends of 75c, $1 and $1.25 silks which we're offering at 55c yd. Many of the newest 1904 effects in browns, tans, blues, etc., are still here—choice 55c yd

DETROIT, June 14.—With the game apparently gone, the Detroits indulged in a ninth-inning batting rally, three hits tying the score. Kitson gave way to Killian, and in the last of the eleventh, after Barrett had made his fifth hit, Jacobson took Townsend's place. Detroit failed to score on three hits in the eleventh, and again with three on bases in the fourteenth. The game was called by the umpire on account of darkness after the fifteenth. AGAINST THE WIND.

Pittsburgh Homers Had Hard Time in a Long Flight.

The Pittsburgh district of the N. A. of A. H. P. F. held its fifth old bird race of the season yesterday from Vandalia, Ill., 500 miles, air line. The birds were liberated at 6 o'clock Saturday morning by J. L. Craig, baggage master at that place, who reported weather clear, with a strong east wind directly against the birds' course, which accounts for the poor showing.

The first and only bird that reached home in record time was Albert Goeb's of 1808 Carson street, the most successful long-distance homing pigeon flyer in the country, with a blue check cock at 4:39:17, making an average speed of 419.61 yards a minute. The race next Saturday from the world's fair, St. Louis, promises to be interesting, as all the districts will be engaged. All of the birds in this locality will be entered and the members expect to make the fly in a day.

SCANLON PITCHED THE P. A. C. TEAM TO VICTORY

Joe Steen Was the Only Elk Player Who Could Do Any Business With the Bat.

P. A. C. had an interesting game with the Elks yesterday. Scanlon's pitching was too much for the Elks and one lone run was the best they could do. In the fourth Steen singled, went to second on Cuddins' error and scored on Joyce's hit. Scanlon let himself out stronger in the latter part of the game, and Steen was the only man who hit with any success. Joyce and Steen did the star fielding for the Elks.

Capt. Soffel's boys played a fine all-around game. Shettler caught in his usual style. P. A. C. bunched its hits with a couple of errors and scored five runs in the fifth. Bill Gunbert pitched the last four innings in good form. P. A. C. plays the Smoky City Giants at Friendship park at 6 o'clock this evening. The score:

RECALL THE DAYS OF "LOST CAUSE"

Veterans of the Stars and Bars Gather in Convention.

MOURN THEIR DEAD LEADER

[BY ASSOCIATED PRESS TO THE GAZETTE.]

NASHVILLE, TENN., June 14.—The United Confederate Veterans began their fourteenth annual convention today, and for the first time since the organization was formed, Gen. John B. Gordon, the beloved commander-in-chief, whose body rests in Oakland cemetery at Atlanta, Ga., did not preside. That his presence was sadly missed was apparent from the frequent reference to his many years of service at the head of the organization, and his brilliant career.

The convention was called to order by Gen. George W. Gordon of Memphis, commanding the Tennessee division. Gov. Frazier welcomed the veterans to Tennessee and Mayor Williams spoke for the city of Nashville.

The opening addresses were responded to by Lieut. Gen. Stephen D. Lee, who is filling the unexpired term of the late commander-in-chief. Gen. Lee's appearance was made the occasion for the most remarkable demonstration of the session. The veterans arose in a body. Hats, handkerchiefs and coats went into the air in all parts of the hall, and cheer after cheer rang out, the gallery joining in the applause. Gen. Lee said, in part:

"I hold no view of southern degeneracy, but I deplore the irreparable loss to my country, and the coming generations when these splendid men, the bravest and best the world has ever held, went down in death. But it is a great comfort to know that the south and the world know it was a revelation to the world; it was a revelation to ourselves.

"As the close of our days draws near, and the work of upbuilding our country passes into younger and stronger hands, let us make it our mission to tell the story. Do not let our children and grandchildren forget the cause for which we suffered. Tell it not in anger; tell it not in grief; tell it not in revenge. Tell it proudly as fits a soldier. There is no shame in all the history. Dwell on the gallant deeds, the pure motives, the unselfish sacrifices. Tell of the hardships endured, the battles fought, the men who bravely lived, the men who nobly died. Your dear comrades shall live again in your words.

"The cause in which the blood was shed will never be lost for as long as the love men have for valor will not die till the blood of a jacket is folded and the last gray head is buried beneath the sod.

The Hon. Thomas W. Owen of Montgomery, Ala., commander of the Alabama division of the Sons of United Confederate Veterans, also spoke in response to the welcomings, for the sons, who sat with the veterans today for the first time. Dr. Randolph McKim of Washington, D. C., was the orator of the occasion.

The matters of greatest interest to the veterans before the convention met today were: "Who will be the next commander-in-chief?" and "Will there be a permanent reunion city?"

Gen. Lee, in filling the unexpired term of the late Gen. Gordon, has general support but some opposition to him is expected, mainly from the Texas delegation, who want Gen. Gabell for commander-in-chief. They argue that Gen. Lee is now filling a government position, as one of the Vicksburg National Military park commissioners.

Advocates of New Orleans for a permanent reunion city urge that the large population of New Orleans can easily bear the expense of entertaining the veterans annually, and that the city is easily accessible. Louisville and Baltimore each hope to secure next year's reunion.

The Jefferson Davis memorial services, under the auspices of the Southern Confederate Memorial association, were held at Christ church cathedral today. The address was delivered by Bishop Thomas F. Gailor of the Episcopal diocese of Tennessee.

The United Sons of Confederate Veterans convened this afternoon in Watkins hall, the chief feature of the program being an address by United States Senator William B. Bate.

On Wednesday afternoon the laying of the corner stone of the monument to the confederate private soldiers will take place at Centennial park, under the auspices of the Masons. After the ceremonies the Hon. Henry Watterson of Louisville will deliver the address.

THE NEW YORK TRACTIONS LED A STRONG MARKET

Prices Closed at the Highest of the Day—New York Central Bonds Oversubscribed—Very Dull Market in Pittsburgh.

By JOHN O. BAGLIN, Financial Editor.

The course of the New York stock market yesterday was the exact reverse of that of the day before. At the opening there was dullness and irregularity, with prices averaging lower. During the middle part of the day trading was extremely dull. In the afternoon the whole list became more active, prices were strong, and the close was at the highest of the day. The over subscription for the $10,000,000 30-year 4 per cent debenture gold bonds of the New York Central offered by J. P. Morgan & Co. was looked upon as a favorable indication of sentiment in investment circles. The weekly crop bulletin issued by the weather bureau, while reporting a variety of weather, stated that winter wheat as a whole was making good progress. The railroad earnings reported during the day were somewhat more favorable than of late, and altogether the sentiment of the street was more cheerful.

The traction shares were the leaders of the market and gave it the upward impetus. Manhattan, which has been inactive for a long time, became very strong, reaching 148½ in the late dealings and closing at a net gain for the day of 3¾ per cent. Metropolitan advanced nearly 2 per cent to 114⅞, closing at 114½ bid. Brooklyn Rapid Transit was quite active and advanced to 48⅝, closing with a net gain of 1 per cent. There were two reports in circulation regarding Brooklyn. One was to the effect that the company had recently marketed a considerable amount of its new bonds, and the other was that negotiations were pending for a lease of the road on a 6 per cent guarantee. This latter report has been made to do service on several occasions of late when the stock became active.

Reading and some of the other anthracite stocks were held in check for a time by a revival of rumors that the national administration proposed to bring suit against the roads under the Sherman anti-trust law, enough information having been obtained, it was said, by the investigation of the interstate commerce commission to justify the government in taking up the matter. This subject was freely discussed in the street and its probable bearing upon the political situation considered, but no conclusion was reached. It may be said that when the government proceeded against the Northern Securities Company there was no preliminary announcement, Wall street being taken by surprise, and it is therefore probable that it suit should be brought against the coal roads the result in the Northern Securities case will be followed.

The standard railroad shares, and particularly the grangers, were all firm and quickly recovered the losses of Monday. One feature of this group of stocks was that the better prospects for winter wheat would cause a larger movement of grain to market as soon as the harvest was completed, and that this movement would offset any falling off in general merchandise traffic which would aid the roads in maintaining earnings. Atchison, Union Pacific and St. Paul all closed strong at a net gain of 1 per cent. Pennsylvania rallied 1 per cent to 115⅝ and closed at the best, and Missouri Pacific, the Erie and Reading closed fractionally higher. Ontario & Western rallied to 26 at the close.

The industrial list was inactive, but shared in the rising tendency. Amalgamated Copper rallied to 49⅞, and held the grain at the close. The decision technically favorable to the company was rendered in one of the interminable Montana suits, but this was hardly a factor in the market. On the other hand, the declining tendency in the foreign and domestic market for copper was passed unnoticed. United States Steel preferred opened a shade firmer at 54⅛ and rallied to 54¾, while the sinking fund bonds rallied a fraction to 74¾. United States Realty and Construction preferred rallied to 60¾, apparently on the plan being adopted for a scaling down of the capital of the company. National Lead and American Smelting were firm and fractionally higher.

Late in the session a rumor gained currency that the Northern Securities litigation had been amicably settled out of court, and that the distribution of the assets of the company would now be made, together with the accrued dividends that await distribution. This rumor may have had something to do with the strength displayed in the final dealings.

The local stock market came almost to a standstill yesterday. The total sales were less than a thousand shares, and half the amount was furnished by River Coal preferred in one transaction, the price being unchanged at 21. Sales of Pittsburgh Coal preferred reached only 125 shares at 55, which was unchanged from the previous close. The steel stocks were dull but steady.

NOTES AND COMMENT.

The largest transaction on the local board yesterday was a block of 465 shares River Coal preferred at 21, Wilson to Whitney, Stephenson & Co. The latter firm has been the largest purchaser on the decline, a fact which is reviving confidence in the declaration of the regular dividend. It was reported yesterday that in the event of a reduction or passage of the dividend, outside holders of the preferred stock would institute legal proceedings to compel the directors to show cause why the regular dividend should not be paid. A suit of this kind, however, would be of doubtful success, because of the wide discretion given directors in the management of a corporation. In some quarters discussion of dividend prospects is deprecated as premature, but when the market value of a stock declines to the lowest ever quoted, it is bound to cause discussion.

The position of the local stock market is somewhat similar to that of the early nineties. Now as then prices are relatively low, and some of the industrial preferred stocks are selling on a basis which represents a low valuation for the actual property value of the various plants. The public, however, fears reorganizations or the necessity for the issue of securities which will outrank those now in the market. The war scare which a dozen years ago caused almost the entire Wesidge house group to sell on an abnormally low basis, and which depressed all the natural gas stocks to a figure which scarcely covered the value of the old iron in the pipe lines. The stocks which at that time were selling at bankrupt prices subsequently recovered and have since sold at a premium over par. Some of the stocks which suffered so severe discount will repeat that experience, and the public will eagerly pay double or treble present prices, but until it is demonstrated that the companies will be able to pass through the business reaction without unfavorable, the market will remain dull and narrow.

—

At the annual meeting of the Home Trust Company yesterday the board of directors was re-elected as follows: W. L. Hurly, F. T. F. Lovejoy, H. B. Beatty, George W. Crawford, R. W. Allison, R. C. Hall, J. G. Splane, John F. Sweeny, F. M. Lowry, Alvin C. Spindler, J. Alex Hardy, John L. Porter, Robert J. Davidson. The main banking room of the company has been entirely remodeled and refurnished, and the real estate department has been removed to new quarters in this room. This will add to the convenience of customers. The total deposits of the Home Trust yesterday exceeded $1,100,000.

—

Fifty shares Union Switch & Signal common will be sold on the exchange today for account of whom it may concern.

—

American Sewer Pipe was quoted at 20 bid, 21 asked.

—

Real Estate Trust Company's directors at their regular meeting held yesterday afternoon decided the customary 2 per cent quarterly dividend, payable July 1 to stockholders of record on June 25. When this dividend is paid the trust company will have paid from its earnings since January 1, 1902, $440,000 in dividends.

—

There were no sales of Westinghouse Airbrake yesterday, and only one share Electric changed hands. The former closed at 127½ bid, and the latter closed offered at 78.

—

Ohio Fuel Supply was a fraction lower at 37⅝ asked. Manufacturers Light & Heat sold unchanged at 29⅜.

—

There were no sales of Pittsburgh Coal common, which closed at 14½ bid.

—

The consolidated reports of the national banks of Pittsburgh show that since the March statements there has been a decrease of $472,984 in total deposits and an increase of $776,616 in loans and discounts.

—

Northern Central Railway directors have declared the regular semi-annual dividend of 4 per cent payable July 15 to stock of record June 30.

—

Directors of the United Railways Company of St. Louis have declared the regular quarterly dividend of 1¼ per cent on the preferred stock, payable July 10 to shareholders of record June 26.

—

Copper was fractionally lower in London. Trade advices indicate that both foreign and domestic consumers are working in concert for lower prices. Buyers have gotten quotation down but it is said there is very little copper offered for sale.

—

The directors of American Woolen Company will meet tomorrow and declare a regular quarterly dividend of 1¾ per cent on the preferred stock, payable July 15.

—

The directors of United Fruit Company have voted to issue stock to retire the outstanding convertible bonds, amounting to $3,934,000. The directors yesterday declared a dividend of two per cent, an increase of one-half per cent, payable July 15 to stock of record June 30.

President Starbuck, of New York Airbrake, says: "In addition to the order for equipping 40 locomotives and 1,000 cars for the Burlington, our company has recently received many orders from other railroads in all parts of the country. Our business is very good and we have work on hand sufficient to occupy our attention for over three months ahead."

—

A prominent drygoods merchant says: "The market is one which is puzzling the best posted men. Three weeks ago it looked as if we should have a fairly good summer. Week before last we did more business than we have done during any two weeks this year, but last week we did practically nothing. The decline in price of raw cotton has influenced buyers of unfinished goods a great deal. Most of them expect lower prices for finished goods, but as a matter of fact the mills have been running at a loss for some time, and, although raw cotton is lower, I do not see how prices of finished goods can be reduced yet. It is a fact, however, that business at the moment is at a standstill. This is particularly true of business in the larger western cities where, up to a few weeks ago, it showed no falling off."

—

Contrary to expectation the consumption of lead for the month of May was very much larger than anticipated and compared most favorably with the business for April. Lead interests were surprised at this as they had calculated on a material decrease in the consumption for May, but as the accounts now coming in, it was discovered that the manufacturers had bought a much larger quantity than looked for, and the aggregate amounted to a tonnage nearly equaling the preceding month. This condition of the trade is said to be partly responsible for the advances in National Lead.

—

A rumor which obtained some currency is to the effect that negotiations are on foot for a lease of Brooklyn Rapid Transit by the Long Island railroad for 33 years, the latter road to guarantee a three per cent annual dividend on Brooklyn Rapid Transit stock during the term of the lease. This story met with a most emphatic, unqualified official denial.

—

The Wall Street Journal says: At the July meeting of the steel billet pool the question of reducing prices will be brought up for consideration. It is not known what action will be taken, but strong arguments for reduction are to be presented. Some of the weaker members of the pool are understood to be in favor of a cut below $23 a ton. They want to force the small independents out of the market. They are reinforced in their stand by the present condition of bessemer pig iron, the price for bessemer being nearly $10 a ton below billets and by the growing belief that the wide differential in prices cannot be maintained through the third quarter. The average price of billets at Pittsburgh for the last four years has been above the present price of $23 a ton ranging from an average of $31 in 1903 to $24.13 in 1901.

—

The inquiry for bonds in the New York market yesterday was broad and resulted in moving many long dormant issues but sales were restricted in most cases at concessions. Large blocks of some of the standard investment bonds changed hands. Total sales par value $2,295,000. United States bonds were unchanged on call.

—

John D. Rockefeller is in Cleveland for the summer. William K. Vanderbilt and J. P. Morgan have been abroad for some weeks. E. H. Harriman and George J. Gould will sail for Europe before the end of June. All the members of the Rock Island party are away from Wall street. Jacob H. Schiff, James Stillman, William Rockefeller and H. H. Rogers expect to be in close touch with Wall street for the greater part of the summer.

Foreign Exchange.

The Iron City Trust quotes checks as follows: London, $4 87.25; Paris, $5 16.50; marks, 95.30; kronen (Austria), 20.87; Dutch guilders, 40.42½; roubles, 51.64; pesetas, 14.15; kronors (Scandinavia), 26.80; Hongkong (dollars local currency), $4 47.50; Yokohama (dollars local currency), $5 00; Manila (pesos), par.

NEWS FROM THE MINES.

The Grand Central Mining Company of Tintic has declared its usual dividend of 10 cents a share, or $25,000, making a total of $1,086,000 disbursed to stockholders.

—

For a consideration of $45,000 the Kirkland placer mines have been transferred to McNicholas Brothers of Portland and to Chicago people. The property has produced in a small way for the last 10 years, and from it is now being taken out placer gold to the amount of $5,000 monthly. W. H. Kirkland, the original owner, and for whom the property was named, is at present a resident of Chicago. The land is situated in Josephine county, near Leland. The ground for the 60-ton mill, which will be erected by the Ruby Basin Company during the summer, has been cleared and work of excavating will be started as soon as the plans arrive, which will probably be within two weeks.

—

A 12-inch streak of solid ore has been opened up in the Brazil group, in the Freeland district, Colorado, careful assay tests of which indicate an average value of $14 a ton. Two tons a day are being taken out of the mine in the development works.

—

A number of Pittsburghers are in receipt of paper-weights from the Pittsburgh and Montana Copper Company of Butte, Mont., made from the first copper turned out by the "Baggaley process." The property is a Pittsburgh enterprise.

—

The supreme court of Montana has decided that the celebrated law known as house bill No. 132, which permits corporations to dispose of property to other companies is constitutional. The act was passed over the veto of Gov. Smith in 1899. It was under this law that the Amalgamated Copper Company was enabled to purchase the properties of the Boston and Montana, Butte and Boston and Parrott companies. The question as to the constitutionality of the law was raised in an action brought by O. R. Allen against the Ajax Gold Mingling Company, which sought to transfer its property to the National Prospecting and Developing Company of New Jersey. Judge Clements in the district court of Lewis and Clarke counties, grants an injunction, and his ruling is now reversed.

Foreign Money Markets.

LONDON, June 14.—Money was in good demand in the market today, and the supply was more plentiful, owing to the release of the Japanese loan installment. Discounts were firm.

On the stock exchange the market generally was idle on account of lack of business, many of the operators being in attendance at the Ascot races. Consols were dull, but recovered at the close.

Americans opened easy and below parity, at which they were idly steady. Subsequently there were some improvements to above parity. The market closed dull. The amount of bullion taken into the Bank of England on balance today was £153,000.

PARIS, June 14.—Business on the bourse today continued inactive throughout. Russian imperial 4s closed at 90.45. Rio Tintos gained 5 francs. The private rate of discount was 1¾ per cent. Three per cent rentes, 98 francs 12½ centimes for the account. Exchange on London, 25 francs 21 centimes for checks.

BERLIN, June 14.—Trading on the bourse today was lifeless. American rails were depressed, owing to the New York ocean steamship companies entering upon a rate war. Exchange on London, 20 marks 41 pfgs. for checks. Discount rates—Short bills, 1½ per cent; three months' bills, 3 per cent.

EAST END DEAL MAY NET $75,000

wo Triangular Business Sites Bought for Investment—Good Bradley Place Sale.

HOUSES ARE TO COST $35,000

The Commonwealth Real Estate Company closed a transaction yesterday involving East end property to the amount of about $75,000. The firm sold for Mrs. Mary D. Hendricks, formerly of this city, and now a resident of Honolulu, Hawaii, two triangular pieces in Center avenue, Shakespeare and Bellter streets, Twentieth ward. The name of the purchaser is withheld for the present as is the exact consideration, though it was learned that the price is near the 75,000 mark. One lot fronts 194 feet in Center avenue, extending back 92 feet and varying to 84 feet in Shakespeare street. The other lot is on the opposite side of Shakespeare street, where it fronts 124 feet, extending back 95 feet and facing in the rear 86 feet in Bellter street. The Center avenue site is about 200 feet from Penn, and is in the rear of the Prudential Trust Company's headquarters. It is near the property of the Kuhn Catering Company and also near the City Deposit bank. In fact, the location is in the very choice business section of the East liberty district. The purchase is understood to have been for investment. The lots are practically unimproved, the buildings being now unfit for business purposes. Taking this into account, the figure at which the property is reported sold is above the average for that district.

Frontage Brings $22,500.

J. H. Lee has disposed of his frontage in Bradley place, Shadyside, for $22,500, or about $80 a foot. The buyer, whose name is withheld for the present, is a local capitalist who will at once start the erection of seven houses of costly design, two on each of the lots, in the parcels each with a depth of 100 feet. One parcel of 120 feet faces on the north side of Browne street, between Morewood and Atlantic avenues, and the other plot of 160 feet is on the opposite side of the same street. This is the largest block of vacant frontage left in Bradley place, and its sale and the improvements planned will add considerably to the value of the surrounding property. The houses to be built will be center hall pressed brick dwellings, with 12 rooms and two bath rooms each. Bradley place will probably show more destructive buildings erected this summer than any other exclusive residence section, with 17 more houses, to cost from $8,000 to $20,000 each, will soon be under way in Morewood, Millvale and Atlantic avenues.

An offer of $115,000 was yesterday submitted for the property of William Roseburg on the north side of Lincoln avenue, between Thomas street and Ellsworth avenue, Bellevue. It was made by a Bellevue realty company and if accepted the property will be at once plotted for residence sites. It is reported on good authority that the estate firm is in the market for the property, and that it is acting in the interest of Philadelphia capitalists, who propose to erect a six-story apartment hotel to cost $400,000. For either purpose the location and surroundings make the property one of the most desirable to be found round the city. The old Roseburg homestead, as it is called, includes 12.75 acres extending through to Brighton road, and having on it the old family residence, a large frame house surrounded by abundant shade trees and beautiful grounds.

Busy Day in Allegheny.

Walter P. Fraser has purchased from James W. Cartwright, 1,800 square feet on the northeast corner of North avenue and Resaca place, Second ward, Allegheny, for $16,000. The property faces 48 feet in North avenue and has a depth of 100 feet. The foundations are now being laid for a double brick house to face in Resaca place and cost $10,000. The North avenue frontage will be reserved for a flat. W. P. Weitershausen sold for Rosa D. Louis Mauff a three-story two-family brick on lot 40x100 feet, in Radner street, Twelfth ward, Allegheny, for $1,850. Also for L. W. Kartlick to C. J. Yetter an improved lot, 20x100 feet, in Lang avenue, Thirteenth ward, Allegheny, for $1,600. H. H. Mendel has sold for the Hope Building & Loan Association to Frank P. Body 1 Yale street, Second ward, Allegheny, an eight room frame house on lot 25.5x96 feet, for $1,800. For the same owner they also sold to Harlan Brodrick 79 Yale street, an improved lot 25x110 feet, for $1,200. A. D. Wilson sold for the Western Insurance Company to E. A. Reineman 122 Fayette street, Fulton Market, Fifth ward, Allegheny, a 10 room brick house on lot 24x133 feet, for $8,000 cash. The Real Estate Savings and Trust Company sold for Richard H. Hammer and others to Daniel F. Molter, 1215 Palo Alto street, for $4,000.

Residents of the Twentieth ward are rejoiced not a little at the street improvements which are being made and the prospect of getting rid of the unsightly and dangerous streets that have held back property values for some time. Baum street is now being paved from South Negley to Highland avenue. Randolph alley will also be paved from Baum street to Friendship avenue and Coral street will be paved from Negley avenue to Rebecca street. Olga alley will be paved from Harriett street to Friendship avenue. There is very little vacant frontage on any of the streets named and the improvements will aid property owners much in renting their houses as well as selling their properties.

Within a week J. C. Dight bought from W. D. Updegraff and Dr. W. A. Stewart three lots, 120x120 feet, in the south side of Trevanion avenue near Braddock avenue, Wilkins office, for $6,000. Mr. Dight will build three 10-room reception hall brick houses to cost $5,500 each.

Kelly street: The Commonwealth Real Estate Company sold for Bird Thaw Collins to Levi Devore, 4715 Kelly street, Twenty-first ward, a frame house on lot averaging 46x100 feet, for $5,800. The same company sold for Hannah Frazier to E. M. Scott a six room frame house on lot 50x150 feet at the southwest corner of Clawson and Susquehanna streets, Twenty-first ward, for $3,900.

Miscellaneous sales: M. J. Ehrenfeld sold for R. E. Edsell, 151x153 feet, vacant, in Stanton avenue, near the Highland park entrance, for $10,600. The purchaser's name is withheld. It is understood that the property will be improved soon with a handsome residence.

Joseph P. Fisher sold to Jacob Keller, 30x111 feet in Euclid avenue, near Rippey street, Nineteenth ward, for $6,500.

The Jane McCoy estate sold to Herman Schmidt, 24x120 feet, improved, on the east side of Herron avenue, Thirteenth ward for $2,650.

Oswald Ende sold to Joseph Gurczak, 24x100 feet, improved, on the north side of Mary street near Thirty-third street, Twenty-fourth ward, for $2,000.

Henry Heesen sold to Joseph Henin, 40x120 feet, improved, in Berg avenue, Twenty-seventh ward, for $2,500.

George Brose sold to Mrs. W. D. George for $2,650 a four acres of the Davis estate in Cochrane street, Sewickley, for $6,000.

Building permits were issued yesterday to Sarah S. Wood for five two-story frame dwellings in Holmes street, Eighteenth ward to cost $5,000; F. E. McGillick, two two-story brick dwellings in Atlantic avenue, Twentieth ward to cost $7,000 and B. E. Keller a two-story brick dwelling in Murtland avenue, Twenty-first ward to cost $17,000.

The Real Estate Savings and Trust Company of Allegheny has sold for Richard H. Hammer et al to Daniel F. Molter, 1215 Palo Alto street, Allegheny, for $4,000.

The Cotton Market.

NEW YORK, June 14.—Cotton—Spot market closed dull, middling uplands, 12.50c; middling gulf, 12.85c. Futures closed steady: June, 11.71c; July, 11.51c; August, 11.40c; September, 10.29c; October, 9.87c; November, 9.76c; December, 9.79c; January, 9.83c.

SUGAR FIRMER AGAIN; SWEET POTATOES DONE

Poultry Is Slow—Hay and Oats Hold Steady—The Horse Market Improves.

There were few changes in the grocery market yesterday; prices remained the same and demands were centered upon the same articles that were wanted last week—flour, sugar and canned goods, principally. Advances are looked for in sugar very soon. Butter and eggs are steady at present quotations and cheese showed no improvement locally over last week. Spring chickens are quoted lower, though business in this line is none too flourishing just now.

Produce business was active yesterday. Tomatoes are moving more freely, and the supply was more ample than for some time. Old potatoes are holding up very high, many sales being reported at $1 50. New stock is getting easier gradually. Sweet potatoes are out of the market now. The stock has been entirely exhausted here; new sweet potatoes will be coming in from Virginia, however, before long. There is a fair demand for home-raised strawberries, and prices remain about the same.

On account of the annual election of the grain and flour exchange yesterday, comparatively little business was transacted. Hay is holding steady, and so are oats. No change reported in corn. There is very little doing in wheat locally, while millfeed is selling at unusually high prices, in spite of predictions of a break long before this time. The horse market was active yesterday. About 140 sales were made at the Pittsburgh exchange. The stock consisted of drivers principally, for which the demand is fair at present. Very few draught horses changed hands. Prices ranged about the same as last week. Some good work horses were bought for investment at yesterday's sale, but most of the buying was for immediate use.

HAY, GRAIN AND FEED.

Receipts bulletined: Pennsylvania, 15 cars hay, 12 cars oats, 5 cars corn, 1 car straw; Pittsburgh & Lake Erie, 2 cars hay, 2 cars corn, 1 car feed; Baltimore & Ohio, 7 cars hay, 2 cars corn, 3 cars oats.

BEARISH SENTIMENT BUT LIGHT DEMAND

Favorable Weather Brought Out Liberal Offerings of Wheat.

[By Associated Press to The Gazette.]

CHICAGO, June 14.—Bright sunshine for the harvest fields brought out liberal offerings of wheat today. Demand, however, was light and the July option closed at a loss of 1¾c. Corn is down ⅞c. Oats are off 1¼@1⅜c and provisions 15@35c.

Sentiment in the wheat pit was bearish from the start. Initial prices for July being down 1¼@1⅝c to 1½c net lower, July closed 83¾c. A number of influences combined to create a feeling of depression, the most important being the perfect harvest weather in the southwest. Weakness of foreign markets in the face of a sharp upturn here yesterday was another bearish element. The fact also that the first carload of new wheat had arrived at St. Louis and had graded No. 2 red brought out a number of selling orders. Many traders went short in expectation that the weekly weather bureau report would show an improvement in condition of the crop. The market continued heavy throughout the day, about the only demand coming from shorts. A comparatively small decrease in the world's visible supply was a late bear factor and intensified the decline to 1¾c. Stocks at Chicago increased by private advices from Paris estimating 12½ per cent increase in the French crop over last year. After selling down to 84¾@85¼c, July closed at 84¾@85c. Clearances of wheat and flour were equal to 320,800 bushels. According to Bradstreets, the world's available stocks decreased 2,760,000 bushels. Primary receipts were 395,800 bushels, compared with 246,500 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 246 cars, against a like number last week and 232 cars a year ago.

Favorable weather had a bearish effect on corn as well as on wheat, but another factor of possibly equal importance was the large increase in private and public stocks. The make in the latter factor more effective there was a lack of adequate shipping demand, thus practically insuring a still further accumulation of stocks. Cash sales were 315c added to forcible down corn prices. The market had a downward tendency throughout the entire session, and final figures were almost at the lowest point of the day. July closed a shade to ⅞c lower at 48⅝@49c to 49¼c, sold down to 43¼@48¼c and closed at 48⅝@48½c. Local receipts were 614 cars, with 36 cars of contract grade.

Oats yielded only a trifle, despite the weakness in other grains. There was some profittaking by small holders, but offerings were readily absorbed. Cash sales and a good increase in the visible supply were supporting influences. After closing unchanged to a shade lower at 39¾c to 39⅝@39¾c, July ranged between 39⅜@39¼c and 39¾c, closing at 39¾c. Local receipts were 185 cars.

Provisions were weak on selling by some of the largest holders. The impression prevailed that several of the eastern longs liquidated their holdings. The market closed at the bottom, with September pork down 35c, at $12 60. September lard was off 15c at $6 90. Ribs were down 20c at $7 72½. Estimated receipts for tomorrow: Wheat, 84 cars; corn, 265 cars; oats, 193 cars; hogs, 33,000 head.

GOOD PRODUCERS FOUND IN THE LITTLETON DISTRICT

The Littleton district, in Wetzel county, W. Va., is coming to the front with some very good producers. The operators in that development are extending the producing area of the Gordon sand and in every indication that operations will be increased in this district. The South Penn Oil Company has drilled its second test on the E. Whitlatch farm into the Gordon sand and the well is flowing at the rate of 20 barrels an hour. This well is almost opposite the Philadelphia Company's good producer on the J. E. Anderson farm. In the same district, the South Penn has drilled its test on the Lindsay Gray farm, 14 feet into the stray and has developed no oil or gas. It is now drilling to the Gordon. South of the Littleton district, on Rocky run, the South Penn has drilled into No. 3 on the Sarah Johnson farm through the Gordon and has only a small pumper. On Morris run, the South Penn has drilled its test on the Joseph Horner farm through the sand and has a show for a small pumper.

In the Pine Grove extension, the South Penn has drilled its No. 4 on the Morton Dulaney farm into the sand and has a show for a 100-barrel producer. On the east side of the extension, the Ohio Oil Company and the Manufacturers Gas Company have completed their No. 3 on the Furbee heirs' farm and have a fair pumper. In the Folsom district, the South Penn has drilled its No. 4 on the Fox-Robinson farm 10 feet into the stray and has a show for a 10-barrel well. The same company has completed its No. 51 on the Genine Robinson tract and will have a 25-barrel pumper in the Gordon.

In the Bonds creek district, Ritchie county, Beatty & Crawford have completed their No. 6 on the William Douglass farm and have a natural producer, good for 30 barrels a day in the Keener sand. In the Big Injun development, near York, the Elder Oil Company has completed its No. 7 on the J. W. Musgrave farm is holding up at 315 barrels a day. In the same district, Bartlett, Riddle & Browne's No. 1 on the Mahlon Archer farm is pumping with 246,500 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 246 cars, against a like number last week and 232 cars a year ago.

BRENNAN DENIES CUTTING DARBY

Pleads Self-Defense in the Fight Which Resulted in the Constable's Death.

ORDINANCE KNOCKED OUT

The commonwealth's case against James P. Brennan on trial charged with killing Thomas Darby was opened yesterday with samuel Marks, a colored barber, collector, on the stand. Marks saw the fight and said he thought he saw a knife in the defendant's hand. He was sure Brennan had something in his hand, but would not swear it was a knife. On cross examination he said the article looked like a putty knife.

Mary Mandak saw something in Brennan's hand. She thought it was a knife.

William Sherwin said he had picked up Brennan's coat and hat on the sidewalk some distance from the scene of the fight. He found the eraser some distance from the coat.

Lew F. Holtzman, Henry Wagner and E. D. Nugent testified to examining Darby's vest. They found the empty eraser case in the upper left pocket and a pair of spectacles in the upper right pocket.

Miss Rose McGrath had seen the vest removed. It fell to the floor and was carried into another room before being examined. The testimony about the vest is considered important, as Darby's wound was on the right side, and one theory advanced for the defense has been that the wound was inflicted by the eraser being forced into his side during the struggle while it was still in his pocket.

The defense opened by putting Brennan on the stand. He said he met Darby who threatened "to smash his face." He tried to get away and Darby followed him. At Wood alley and Tenth street Darby pulled off his coat and struck him. The next time Darby struck him the blow split his upper lip. Darby struck him a third time. Both fell, Brennan on top, and Darby striking at him. They got up and the witness told some people to take Darby away. Darby struck him again and they fell again. Brennan swore he had never seen the eraser until at the coroner's inquest and said he never attempted to stab Darby and did not stab him. He said he had seen Mrs. Holtzman at the fight, but denies that he struck her.

On cross-examination he admitted that Mrs. Holtzman had pulled his hair to get him off Darby but the latter was holding him and he could not get up. After they were up he said Darby would have assaulted him again had not two men prevented him.

Albert Wittmer, a boy, saw the fight and said Darby struck the first blow. He did not see any knife. As Darby was being helped to his feet he said to Brennan, "You would not kill a poor cripple would you?" Brennan replied that he did not want to have anything to do with him.

John Fox, colored, swore that Darby struck at Brennan twice before the latter took off his overcoat. David Berringer heard Brennan say, "Keep him away, I don't want to have any trouble with him."

P. J. Brennan, a brother of the accused, testified to the latter's condition after the fight. George Wilcox, a drug clerk, said he had warned Darby about carrying the eraser with the blade up in his upper right vest pocket. Julius Aswald, Charles Hook and Tim O'Leary, all gave testimony about Darby's custom of carrying the eraser with the blade up.

John Witts, convicted of burglary, was sentenced to serve 18 months in the workhouse.

Judge Brown in an opinion in the suit of J. O. H. Smith against the city of Pittsburgh decided the ordinance of October 2, 1899, fixing a penalty of $200 for violation of the pawnbroker's regulations, is not operative inasmuch as it conflicts with the act of March 7, 1901, which fixes the maximum penalty for violation of ordinances at $100. Smith was made defendant in an action by the city before Alderman Connor, who on March 12, 1904, entered judgment against Smith for the alleged violation in the sum of $200. The court finds among other things that the ordinance under which the judgment was assessed was not in force and the subsequent act was the authority in the matter. The judgment of the alderman was reversed.

The grand jury yesterday returned true bills against Aurora Cuppe and Mrs. Evaline N. Schopfer, charging murder, and one against J. Perry John, charging him with being an accessory before and after the fact to murder. The bills were returned after the coroner had made an investigation into the death of Charles F. Schopfer, which occurred on August 2, 1903, from a revolver shot received the night before.

The other true bills returned by the grand jury were as follows: Felonious assault and battery, William Fenton, Thomas Kyles; assault and battery, William Anderson, Mary Consintino, Joe Danglosky, Mary Johnston, Josephine Target, Elizabeth Thomas; entering a building with intent to commit a felony, Michael Conners, William Galley, James Watt, Raymony Callaghan; larceny, Mary Doe, John Lailey, Fred Locke, Mary Persehley; misdemeanor, Maud Birch, Harry Bell, Louisa B. Brown, Charles F. Fetters, Andrew Dowd, Peter Statolis, G. W. Schnaufer; embezzlement, Harry L. Christy.

The Chicago Pneumatic Tool Company yesterday brought suit in the United States circuit court against the Cleveland Pneumatic Tool Company of Cleveland, O., and its Pittsburgh agent for the infringement of what is known as the Boyer patent. It is under this patent, recently sustained by the circuit court of appeals in Philadelphia, that the Chicago company claims a monopoly of the pneumatic tool business. The court granted a rule to show cause why a preliminary injunction should not be granted, returnable on June 27, when argument will be had upon the application for injunction.

LAKE STRIKE IS BROKEN.

Masters and Pilots Give In. Settlement Likely With Mates.

CLEVELAND, O., June 14.—After a six weeks' tieup of traffic on the great lakes, which has practically involved only a couple of thousand men, but indirectly more than 100,000, a cessation was brought to the strike tonight by the surrender of the masters and pilots, who have been holding out for a more uniform scale of wages this season than was offered by the Lake Carriers' association, whose boats were most affected by the difficulty.

It is understood that the Lake Carriers' association will soon come to an agreement with the mates and that a full fleet of the Lake Carriers' association will be gotten under way within a very few days.

INDIANA FEUD IS FATAL TO FOUR

Three Men Are Shot to Death and One Mortally Wounded.

FIGHT WAS AT THE POLLS

[By Associated Press to The Gazette.]

BRYANTSVILLE, IND., June 14.—Three men are dead and two wounded, one fatally, as the result of a pistol fight on the streets of this village today.

THE DEAD:

JAMES ROUT.
CHARLES ROUT.
MILTON TOW.

James Tow is fatally wounded and Frank Tow is badly hurt.

The fight was the culmination of a feud between the Rout and the Tow families. The Routs live at Bedford, eight miles from Bryantsville, and the Tows are farmers living near here. The Tows are relatives of the Tow family which participated in the bloody Tow-Bass feud some time ago.

A free gravel road election was held here today, and the village was crowded with farmers. There had been considerable drinking, and when the Rout brothers drove into town and passed the Tows, who were standing near the election booth, trouble was looked for.

Five minutes after the Routs reached town today they were seen approaching the election booth. The Tow brothers stood about 10 feet apart, awaiting the arrival of the Routs. There is a dispute as to whether there were any words before the shooting began, and it is also in doubt as to who fired the first shot, but it seemed to be recognized by all the participants that it was fight to the death.

Each of the five men drew a revolver, and each side advanced, all firing. The men were not fifteen feet apart when the firing ceased. On the ground the two Rout brothers and Milton Tow lay dead. James Tow was prostrate, fatally hurt, and Frank Tow, though able to stand, had a bullet in his arm and another in his side.

Fail to Reach Agreement.

CAMBRIDGE SPRINGS, PA., June 14.—(Special.)—After a session lasting all day, the committees of the Amalgamated association and the Republic Iron and Steel Company adjourned this evening, without coming to any decision regarding the demand of the company for a reduction of the scale, to meet again before July 1, at the call of either side. The Amalgamated association committee will meet representatives of the American Steel Hoop and Carnegie interests in Pittsburgh on Friday of this week to settle the scale for the coming year, which begins July 1. The sheet steel wage conference will be called to meet early next week, either at this place or Pittsburgh. The sheet steel workers are now working under a reduction of 18 per cent, which was forced upon them early in the past year, and they will now ask that they be given an increase of 8 per cent.

The judges were Mrs. John Darr of Wilkinsburg, Mrs. H. C. Fry of Rochester and Richard Griffith of New Brighton.

MOORE PUTS CASE UP TO COUNCILS

Proposes to Take Police and Fire Funds to Supply Health Bureau.

FIREMEN TO BE SACRIFICED

Director Moore said yesterday that an appeal would be made to councils for funds to supply the deficiency in the health bureau. As published in the Gazette last Sunday, Controller Larkin refused to join the director in a request to councils for another bond issue, the controller claiming the circumstances did not justify another bond issue and that council had already reached the legal limit of issuing bonds without a vote of the people.

Councils, if the mayor and the controller so certify, can, under the new charter, make a special tax levy in an emergency, but Director Moore does not think this will be necessary. He said yesterday he might be able to find a surplus in the police and fire bureaus, enough at least to supply the deficiency in the health bureau. The firemen have been told there was no surplus in the fire bureau, and for this reason were refused vacations by the public safety officials. Their resolution granting them a two week's vacation with pay is still in the hands of the mayor who is out of the city. He will return on Friday and must then reach a decision regarding the bill as it will be the last day he will have to veto it if he so desires. It is Director Moore's plan to cut down the expenses of the police and fire bureaus to help the health bureau out of its hole. Councils cannot authorize a special levy for any purpose unless the controller gives his approval, and this Larkin will not do.

Dr. E. G. Matson, city bacteriologist, yesterday gave out a statement scoring the controller for refusing to assist the health bureau in getting another bond issue. He criticised the controller for taking this stand and at the same time declared that the controller has no jurisdiction over the health bureau. The controller declined to reply to Matson.

PLUMBER WAS OVERCOME BY GAS IN A CELLAR

While one of the teachers in the Linden avenue public school was passing through the hallway of the building yesterday she saw that the cellar door was open. At the foot of the stairs a man was lying, apparently dead. The young woman gave the alarm and the man was removed. He was Joseph Haller of 323 Thirty-eighth street, employed to repair a leak in the gas pipes. He was overcome by the gas, but recovered consciousness and was taken home.

WHEELING, W. VA., June 14.—(Special.)—John Kennon of Washington, Pa., who was found Sunday morning under the Baltimore & Ohio railroad bridge at Valley Grove, seven miles out of this city, died at the hospital today without regaining consciousness. It is thought he fell from the platform of a train.

MRS. VALENTINO RECEIVES RESPITE

It Is Granted by the Acting Governor of New Jersey.

[By Associated Press to The Gazette.]

TRENTON, N. J., June 14.—Acting Governor Wakelee today signed a reprieve which for 21 days, at least, will save Mrs. Anna Valentino of Lodi, Bergen county, N. J., from the gallows. The granting of the reprieve followed an appeal for the condemned woman on the part of a delegation of her countrymen and others.

The delegation requested that the board of pardons be recommended to commute the death sentence to life imprisonment. This phase of the case the acting governor did not consider, holding that there would be sufficient time to call the board together and present all the evidence upon the return of Gov. Murphy.

Among the communications received by Acting Governor Wakelee today in reference to the case, was a telegram from Secretary of State Hay, stating that he had been requested by the Italian government to use his influence in securing a commutation of the sentence of the woman.

Lamb, Phillipsburg; district attorney, H. H. Harshbarger, Bellefonte; county surveyor, D. W. Pletcher, Howard. Col. Wilbur F. Reeder was unanimously re-elected county chairman. Palmer of Wilkesbarre, for the third term; for state senator, Sterling R. Catlin, Wilkesbarre; sheriff, Jonathan R. Davis, Kingston; recorder, Hiram P. Kunts, Hazleton; controller, James M. Whitlock, for over 40 years instructor in Latin in the university, was elected acting president of the college, to succeed James W. It is a home treatment and will not keep you from your work.

Deformity of the hands in general Chronic Articular Rheumatism.

As you know, if you've tried them, every so-called rheumatic remedy on the market today, except this genuine cure, will cause you violent stomach pains and vomiting, and some of them are so dangerous they will cause heart trouble. And the worst of it is they never cure. When a person has rheumatism the constitution is so run down that he should be very careful what he puts into his stomach.

It therefore gives me pleasure to present a remedy that will cure every form and variety of rheumatism without one single unpleasant feeling. That remedy is

"GLORIA TONIC."

"Gloria Tonic" will stop those aches and pains, those inflammations and deformities, and sure you so that life will again be worth living. This offer is not for curiosity seekers, but is made to rheumatics only. To them I will send a trial box of "Gloria Tonic" free.

Never before has a remedy been so highly indorsed as "Gloria Tonic." It has been indorsed by such world-noted men as Dr. Quinero of the Universidad de Venezuela, Hon. E. H. Plumacher, United States consul, Maracaibo; Prof. Macadam of Surgeons' Hall, Edinburgh, the famous magazine, "Health," London, and a million others.
